David C. Wiers

EXHIBIT A

Satori Enterprises has filed the necessary paperwork with the New Hampshire Secretary of State to conduct business in New Hampshire. Satori Enterprises currently maintains an electricity broker's license in the state of New Hampshire DM 12-061 (enclosed) and provided the authorization to do business in New Hampshire to the commission in April 2012. Please advise if the commission would like to review another more recent authorization.

Re: DM 12-061, Notification of Satori Enterprises LLC's Intent to Provide Electric Aggregation Service

Dear Mr. Weirs:

On March 5, 2012, Satori Enterprises LLC's (Satori) filed with the Commission a notice of intent to renew its registration to provide electric aggregation service in the State of New Hampshire, pursuant to New Hampshire Administrative Rules Puc 2003.05. Satori's initial registration expired on May 1, 2011. On April 12, 2012, Staff sent a letter advising Satori to submit a new registration application and details of its activities as an aggregator in New Hampshire since May 1, 2011. On April 16, 2012, Satori submitted a new application with the requested information. Staff has reviewed the application provided and believes that it meets the requirements of Puc 2003.05. Based on Staff's recommendation and the Commission's review, the Commission approves Satori's application to provide electric aggregation service in New Hampshire.

Please note the following provision of Puc 2003.05 (f): "[E]ach approved aggregator shall re-notify the commission after the initial 2 year period, or after the 5 year renewal period as applicable, by filing with the commission an application for renewal at least 60 days prior to the expiration of the currently effective registration." Therefore it is required to refile an up-to-date written notice on or before **February 25, 2014** if it continues to offer and provide electric aggregation service. In addition, Satori is subject to the provisions of Puc 2004.03, telephone solicitation of customers, and Puc 2004.08, customer protections provided by aggregators. Finally, aggregators must comply with the requirements set out in RSA 362-F relative to the renewable portfolio standard (RPS) and RSA 362-F relative to disclosure of electric service energy sources and environmental characteristics. Please refer to Puc 2500 for further details regarding RPS reporting requirements. Commission Order No. 25,264 provides guidance as to the appropriate format for environmental disclosure.

If you have any questions regarding these provisions, please contact the Commission.
Thank you for your cooperation in this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Debra A. Howland". The signature is written in a cursive style with a large initial "D".
