Re: Second Request for Additional Information (Fourth Item) (Docket # DE 12-278)

Dear Ms. Howland:

Per its letter dated December 12, 2013, Staff of the New Hampshire Public Utilities Commission (the "Commission") made, among other things, the following request for additional information of Contoocook Hydro, LLC ("Contoocook" or the "Applicant") pertaining to its Application for Class I certification for a portion of the generation from its Hopkinton Hydro Project (the "Project" or the "Facility").¹

- Provide a copy of all information submitted to the Rhode Island Public Utilities Commission and/or its consultant in support of the Hopkinton Hydro application in Docket No. 4357, with the exception of any such information that is posted on the public web site maintained by the Rhode Island PUC.

In its letter dated September 29, 2014, the Applicant provided this information to the Commission; however, Staff objected to the Applicant's request that all of the requested materials be given confidential treatment. The Applicant revised its response, producing a public version of the annual generation of the Project for the period of 1986 through 2012. Accordingly, enclosed please find Contoocook's revised response to Staff's request for this additional information.

Contoocook wishes to inform the Commission that it believes that the Commission is still in possession of confidential, material non-public information and/or information in excess of the information on its Project requested by the Staff, specifically the monthly generation records of the Project from 1995 through 2012. The Applicant request that all such information submitted

¹ There were five such general requests for additional information. This response covers only one of the five requests and, specifically only the fourth request.

with its September 29, 2014 filing be returned to the Applicant or, in the alternative, be destroyed.

For purposes of responding to inquiries regarding this response for requests for additional information, persons should contact the following:
