Puc 1600 – Tariffs and Special Contracts
Commission Docket No. DRM 13-238
Staff Transmittal of Correct Forms

Dear Attorney Eaton:

On December 4, 2013, Staff forwarded the Commission's Final Proposal for the above-referenced rules. Staff inadvertently attached the forms from the Initial Proposal rather than the corrected forms responsive to Office of Legislative Services (OLS) comments. I apologize for any confusion this oversight caused. Accordingly, attached for your review are the forms the Commission intended to provide. They are fewer in number than the Initial Proposal and Staff has corroborated that the content of the forms contain no more information than is required by the associated rule.

With respect to the OLS comment that there is a duplicate use of "Schedule 1", etc., please note that the regulated utilities have been providing schedules under Puc 1604.07, *Contents of Filing Requirement Schedules* and under Puc 1604.08, *Rate of Return Information*, and have not complained that they are confusing. This is likely due to the fact that the subject matter of the schedules required under Puc 1604.07 differs from the subject matter of the Puc 1604.08 schedules.

Staff proposes one more change, to Puc 1603.01(a)(2), and will seek conditional approval for: strike "with standard 3 hole punch in the left-hand margin". It is a relic from pre-electronic days and this page of the rules is attached. Thank you.

Sincerely,

A handwritten signature in cursive script that reads "Marcia A. Brown".
