Subject: Natural Gas Price Increase

Good Evening,

I am VERY disturbed that the NH Public Utilities Commission is going to allow Liberty Utilities to raise its natural gas rates.

With the volume of production of natural gas, I find it VERY hard to believe they need a rate increase of ANY kind at this time. In fact, natural gas prices have DOUBLED in a year. Guess what...we rate payers haven't seen our salaries DOUBLE in a year in order to accommodate continuous rate increases. Many rate payers are, in fact, on fixed incomes and cannot continue to pay usurious rates just to stay warm in the winter.

I would urge the commission, in the strongest possible terms, to consider the rate payers in this action and quit acting upon the pure GREED of the providers.

Thank you for your attention to this matter.
