DE 11-244	James Buckland	DE 13-332	David Tofts
DE 12-228	Adam Hildebrand		

Dear Mr. McNeil:

On June 16, 2014, the Commission received applications filed by the New Hampshire Electric Cooperative, Inc. (NHEC) requesting Class II eligibility for NHEC member photovoltaic (PV) array expansions¹ and inclusion in the NHEC aggregation. The applicants include: Kim Frase (Frase); Brian M. Morgan (Morgan); Pat Russell (Russell); Steven Olafsen (Olafsen); Ellen Rancourt (Rancourt); Christopher Williams (Williams); David V. Scerra (Scerra); Melanie Ratcliffe (Ratcliffe); James Buckland (Buckland); Adam Hildebrand (Hildebrand); David P. Downs (Downs); Herbert W. Sallet (Sallet); Eckhard Straeter (Straeter); Nathan Mulherin (Mulherin); John David Carmody (Carmody); Dan Lake (Lake); Carol A. Sullivan (Sullivan); Bill Morse (Morse); and David Tofts (Tofts).

¹ Pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law, Class II eligibility requires a facility to produce electricity from solar technologies that began operation after January 1, 2006 (RSA 362-F:4, II).

July 22, 2014
Page two

Staff has reviewed these applications and has recommended approval of these PV array expansions as eligible for Class II RECs and inclusion in the NHEC aggregation, as listed in Attachment I hereto.

Because these facilities are customer-sited sources, the output is not recorded in the ISO New England Market Settlement System, and, as a result, the output must be monitored and verified by an independent monitor. The applications state that NHEC will monitor the facilities' output as required by N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. The total output from these facilities will be included as part of the NHEC Class II aggregation's total output reported to the NEPOOL Generation Information System, as approved by the Commission on April 9, 2010.

The Commission has determined that NHEC has provided all information necessary to demonstrate the eligibility of these facilities' capacity expansions for certification, and hereby certifies the above-named PV array expansions as eligible for Class II RECs and inclusion in the NHEC aggregation, effective as of the respective dates listed in the table set forth in Attachment I hereto.

Sincerely,

A handwritten signature in blue ink that reads "Debra A. Howland / ael".

Debra A. Howland
Executive Director

Dear Mr. Webb:

Please be advised that, pursuant to RSA 362-F, the New Hampshire Public Utilities Commission has certified the above-listed solar photovoltaic (PV) system capacity expansions as part of the New Hampshire Electric Cooperative, Inc. (NHEC) Class II aggregation, effective as of the respective dates listed in Attachment I hereto.

Accordingly, NHEC is eligible to be issued Class II RECs for the expanded capacities of these PV arrays, effective as of the respective dates listed in the table set forth in Attachment I hereto. The NEPOOL-GIS facility code for these facilities is NON 32900.

Sincerely,

Debra A. Howland
Executive Director
