ATTN: Debra Howland, Executive Director

RE: Ecova, Inc. License Nos. DM 13-356 and DM 14-060

Dear Ms. Howland:

This communication is being sent to your attention in compliance with the formal notification requirements associated with a material change to business operations as set forth by the New Hampshire Public Utilities Commission. On or about June 30, 2014, 100% of Ecova's ownership interest was acquired by Cofely USA, a subsidiary of GDF Suez Energy Services, NA. Ecova, Inc. expects to maintain its senior leadership, its brand and its current business plan. Ecova, Inc. is licensed as an Aggregator under license number DM 13-356 for electric and DM 14-060 for natural gas. Attached is a list of officers and directors, as revised due to Ecova's change in ownership. Please note that further and more extensive updates will be submitted within the contents of our next license renewal application and/or annual report. Please advise if further information is needed to meet the reporting requirements.

Sincerely,

DONATO CAPOBIANCO
SVP and General Counsel
