Re: Applications for Certification as REC Eligible Facilities:

DE 14-011	NHEC-Raymond District	DE 14-015	Michelle Piro
DE 14-012	John Nyblom	DE 14-016	Karl Krueger
DE 14-013	Gary S. Lemay	DE 14-017	John Bird – Latchkey Auto
DE 14-014	Cynthia Carpenter		

Dear Mr. McNeil:

On January 14, 2014, the Commission received applications from the New Hampshire Electric Cooperative (NHEC) requesting Class II New Hampshire Renewable Energy Certificate (REC) eligibility for the following entities' photovoltaic (PV) arrays pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law:¹ NHEC-Raymond District Office (NHEC-Raymond); John Nyblom (Nyblom); Gary S. Lemay (Lemay); Cynthia Carpenter (Carpenter); Michelle Piro (Piro); Karl Krueger (Krueger); and, John Bird – Latchkey Auto (Latchkey Auto).

Staff has reviewed these applications and has recommended approval of these PV arrays as eligible for Class II RECs as listed in the following table:

Docket #	Facility Owner	Facility Location	Total MW listed in application (DC Arrays)	Effective Date to Produce RECs	NH Certification Code
DE 14-011	NHEC-Raymond	Raymond	0.04	01-14-14	NH-II-14-007
DE 14-012	Nyblom	Holderness	0.002	01-14-14	NH-II-14-008
DE 14-013	Lemay	Meredith	0.00528	01-14-14	NH-II-14-009
DE 14-014	Carpenter	Groton	0.00245	01-14-14	NH-II-14-010
DE 14-015	Piro	Campton	0.00689	01-14-14	NH-II-14-011
DE 14-016	Krueger	Chester	0.00538	01-14-14	NH-II-14-012
DE 14-017	Latchkey Auto	Meredith	0.0135	01-14-14	NH-II-14-013

¹ Class II eligibility requires a facility to produce electricity from solar technologies that began operation after January 1, 2006 (RSA 362-F:4, II).

Because these facilities are customer-sited sources, the output is not recorded in the New England Power Pool Market Settlement System and, as a result, the output must be monitored and verified by an independent monitor. Your application states that NHEC will monitor the facilities' output as required by N.H. Code of Administrative Rules Puc 2505.08 and 2505.09. The total output from these facilities will be included as part of the NHEC Class II Aggregation's total output reported to the NEPOOL Generation Information System as approved by the Commission on April 9, 2010.

The Commission has determined that NHEC has provided all the information necessary to demonstrate these facilities' eligibility for certification and hereby certifies the above named photovoltaic arrays as eligible for Class II RECs effective as of January 14, 2014.

Sincerely,

A handwritten signature in cursive script that reads "Debra A. Howland".

Debra A. Howland
