Re: DE 14-032, Andrew Locke, Application for Registration as an Aggregator of Renewable Energy Credits

Dear Mr. Locke:

On February 3, 2013, the Commission received a request from Andrew Locke, Hydro Management Group, LLC /Essex Hydro Associates, LLC (Hydro Management) to be registered by the Commission as an aggregator of RECs generated by customer-sited sources pursuant to New Hampshire Code of Administrative Rules Puc 2506. Hydro Management has served as an aggregator of small Class IV hydro facilities. Since there are no specific rules for the aggregation of non-customer-sited sources, this aggregation has taken place with the Generation Information System (GIS).

A customer previously approved for small hydro is now planning to install a photovoltaic system and has requested that Hydro Management continue to provide aggregation services. Staff has reviewed the Hydro Management request and has determined that it meets the eligibility requirements under Puc 2506 and recommends approval effective January 30, 2014.

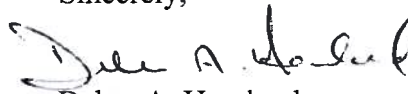

At this time, Hydro Management has not yet aggregated any facilities but intends to aggregate New Hampshire customer-sited source in the near future.

Staff has reviewed the Hydro Management request to be registered as an aggregator for RECs generated from customer-sited sources and can affirm it is complete pursuant to New Hampshire Code of Administrative Rules Puc 2506. Based on Staff's recommendation, the Commission hereby approves and registers Hydro Management as an aggregator of customer-sited RECs effective February 3, 2014. The New Hampshire

certification code for Revolution Energy Aggregation to act as an aggregator of RECs is NH-II-14-024.

Attached please find a copy of the notice of this certification provided to the GIS administrator.

Sincerely,
