SUBJECT: New Hampshire Electric Cooperative Inc., Applications for Certification as REC Eligible Facilities:

DE 14-157	Shepherds View Ranch, LLC	DE 14-167	Eloise Coudert
DE 14-158	Rick Hines	DE 14-168	Brad McKenzie
DE 14-159	Donald J. MacFarlane	DE 14-169	Bryan Turnbull

TO: Chairman Amy L. Ignatius
Commissioner Robert R. Scott
Commissioner Martin P. Honigberg
Debra A. Howland, Executive Director and Secretary

CC: Jack K. Ruderman, Director of the Sustainable Energy Division 
David J. Shulock, Staff Attorney

Summary

On June 9, 2014, the Commission received applications filed by the New Hampshire Electric Cooperative (NHEC) requesting Class II eligibility for NHEC member photovoltaic (PV) arrays¹ and inclusion in the NHEC aggregation². The applicants include: Shepherds View Ranch, LLC (Shepherds View Ranch); Rick Hines (Hines); and Donald J. MacFarlane (MacFarlane).

On June 17, 2014, the Commission received additional applications filed by NHEC requesting Class II eligibility for NHEC member PV arrays and inclusion in the NHEC aggregation. These applicants include Eloise Coudert (Coudert), Brad McKenzie (McKenzie) and Bryan Turnbull (Turnbull).

The Commission, in a non-adjudicative process, is required to issue a determination of whether a facility meets a particular classification within 45 days of receipt of a completed application. The above-named customer-sited PV facilities were approved for operation by NHEC in 2014 and meet the Class II eligibility requirements under RSA 362-F:4, II. Based

¹ Pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law Class II eligibility requires a facility to produce electricity from solar technologies that began operation after January 1, 2006 (RSA 362-F:4, II).

² The Commission granted NHEC Independent Monitor status on May 12, 2009 (DE 09-006). On April 9, 2010, the Commission granted NHEC the authority to aggregate customer-sited sources pursuant to Puc 2506 (DE 10-060).

on review of the applications, Staff recommends that the Commission certify the Shepherds View Ranch, Hines, and MacFarlane PV arrays as eligible facilities for Class II RECs to be included as part of the NHEC aggregation effective as of June 9, 2014. In addition, Staff recommends that the Commission certify the Coudert, McKenzie, and Turnbull PV arrays as eligible facilities for Class II RECs and inclusion in the NHEC aggregation effective as of June 17, 2014.

Overview

Details for the facilities are listed in the following table:

Commission Assigned Docket #	Facility Owner	Facility Location	Equipment Vendor	Installing Electrician	Operation Date ³	Effective Date to Produce RECs	Total MW listed in application (DC Arrays)
DE 14-157	Shepherds View Ranch	Holderness	PAREI	Larry Mauchly	06-02-14	06-09-14	0.00935
DE 14-158	Hines	Plainfield	ReVision Energy	William Levay	05-22-14	06-09-14	0.0052
DE 14-159	MacFarlane	Chester	Planet Green	Marshall Wetmore	05-27-14	06-09-14	0.014
DE 14-167	Coudert	Center Harbor	PAREI	Larry Mauchly	06-10-14	06-17-14	0.0055
DE 14-168	McKenzie	Madison	ReVision Energy	William Levay	06-05-14	06-17-14	0.00572
DE 14-169	Turnbull	Monroe	Smart Energy of NH	Rodney Smith	06-06-14	06-17-14	0.00648

These facilities are customer-sited sources and therefore:

- The New England Independent System Operator asset identification number is not applicable;
- The output is not recorded in the New England Power Pool (NEPOOL) Market Settlement System; and,
- The output must be monitored and verified by an independent monitor (Puc 2505.09).

In addition to reporting each source's output to the Commission, NHEC will include the total output of these facilities when it reports the total output of all of its Class II eligible facilities, under the name *NHEC Class II Aggregation*, to the NEPOOL Generation Information System.

³ NHEC considers the operation date listed in the table above, and in Appendix E of each application, to be the date on which NHEC inspected each facility and installed a revenue quality meter to record the electricity that will be eligible for Class II RECs. The date listed in each interconnection application pertains to the installation and interconnection of the facility and may be different than the operation date listed in the above table.

As the distribution utility, NHEC provided a copy of the approved interconnection agreements for these facilities. In addition, signed attestations approving the installation, operation and conformance with any applicable building codes were provided for each facility.

Recommendation

Staff has reviewed NHEC's applications for the photovoltaic arrays located at the above-named facilities and can affirm all are complete pursuant to Puc 2505.08. Staff recommends that the Commission certify the Shepherds View Ranch, Hines, and MacFarlane PV arrays as Class II REC eligible facilities to be included as part of the NHEC aggregation effective as of June 9, 2014. Further, Staff recommends the Coudert, McKenzie, and Turnbull facilities be certified as Class II REC eligible facilities to be included in the NHEC aggregation effective as of June 17, 2014.

SERVICE LIST - EMAIL ADDRESSES - DOCKET RELATED

Pursuant to N.H. Admin Rule Puc 203.11 (a) (1): Serve an electronic copy on each person identified on the service list.
