Re: October 2014 monthly cost of energy over/under report (DG ¹⁴⁻²³³~~13-255~~)

Dear Ms. Howland,

Enclosed is the October 2014 over/under report. The October 2014 report is hereby filed to reflect the actual fuel costs from November 2013 through September 2014 and projected costs of October 2014.

There is an increase of just over 10% in expected overall monthly steam sales and a 12% increase of anticipated fuel cost since the beginning of the COE year (Nov 2013). As a result, the enclosed July report reflects a COE end of year over-collection of approximately \$ \$52,923. However because this over-collection is less than 1% of the overall expected fuel costs for the year and all of the costs for May through September 2014 have not been fully reconciled, we are not adjusting the COE rate at this time.

The October 2014 tariff is \$21.83/mlb, the November 2014 rate is \$25.10 in accordance with DG 14-233. A new tariff page for November 2014 is attached as required by NHPUC Commission Order 25-728.

If there are any questions please call me.
Yours Truly,

Mark E. Saltsman
Vice President
