Barbara,

I received your letter from today regarding the suspension of the review of the application for Rolling Dog Farm to become registered as a renewable energy facility (DE14-237). What was not referenced in today's correspondence was that the request for waiver was conditional upon the Commission first interpreting "equipment" in Proposed Puc 2506.09(g) as currently written.

It is not clear that the Commission has considered the relatively straight forward process of first interpreting the rule as written before moving to the waiver and suspending the review of the application.

Best regards,

Matt
