Re: IR 14-338, Review of Default Service Procurement Processes for Electric Distribution Utilities

Dear Ms. Howland,

Thanks to you and the PUC for allowing me to comment as a consumer on this matter. I have read the comments by the OEP and find that they represent many of my own views. In particular, I appreciate the comments regarding looking at how other States have handled procurements, and taking another look at QF providers being able to bid on providing default service.

Thank you,

Patricia A, Martin
