### *Summary*

On December 15, 2014, the Commission received applications filed by Knollwood Energy of MA, LLC<sup>1</sup> (Knollwood Energy) requesting Class II eligibility for the following photovoltaic (PV) arrays<sup>2</sup> and inclusion in the Knollwood Energy aggregation.

Richard Sirois (Sirois)	12-26-2014	Matt Tilley (Tilley)	12-26-2014
Keith Yeaton (Yeaton)	12-26-2014	James Roux (Roux)	12-26-2014

<sup>1</sup> The Commission approved Knollwood Energy of MA, LLC as an aggregator of RECs on November 12, 2013, DE 13-256.

<sup>2</sup> Pursuant to RSA 362-F, New Hampshire's Electric Renewable Portfolio Standard law. Class II eligibility requires a facility to produce electricity from solar technologies that began operation after January 1, 2006 (RSA 362-F:4, II).

The Commission, in a non-adjudicative process, is required to issue a determination of whether a facility meets a particular classification within 45 days of receipt of a completed application. The above-named facilities are customer-sited sources and meet the Class II eligibility requirements under RSA 362-F:4, II. Based on review of the applications, Staff recommends that the Commission certify the above-listed facilities as eligible to produce Class II RECs as of the application receipt date listed in the previous table. In addition, staff recommends the Commission approval these facilities inclusion in the Knollwood Energy aggregation.
