There is no need for the NED pipeline, a fact that was pointed out by within the staff of the PUC and increasingly is becoming general knowledge to the public. Competing pipelines (Spectra + PNETS) will bring in more than enough ^{gas} without disrupting undisturbed land + requiring eminent domain.

If this gas is really needed for N.H.
then it should stay in NH or at least
in New England. Kinder Morgan should have
to Guarantee that none of this gas will
ever leave New England in any way, made
sale etc etc

TGP's NEB is not the right
solution for NH. Portland Gas
offers Liberty's solution with minimal
burden and impact to new communities. Kinder
Morgan's proposed line is an overbuild for NE.
An 80,000 hp (now said to be 40,000 hp) Compressor
Station in New Ipswich is within 1/2 mile of
Temple Elementary School and a heavily-forested

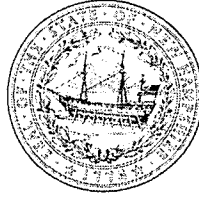

Residential area whose residents
are all on private wells. We object
to Kinder Morgan's invasion of our
community, and the negative economic
impact this proposed project has already
had upon our community. Any real
need that Liberty has for LNG can
be filled by Portland or Spectra ~~and~~ Energy.
I ask the PUC to listen to their
expert who reported that Liberty has not
proven sufficient need for the NEI project.

The pipeline not only does not benefit NH, it
will harm it. Litchfield is home to bald
eagles, blanding's turtles and a major watershed.

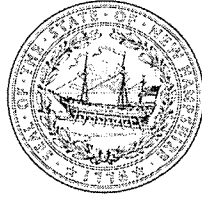

The potential harm to our fragile ecosystem is
not worth the modicum of money "promised"
to us by multi-billion dollar corporations seeking
to pass their dangerous product through our
land for their own profit.
