Re: Public Service Company of New Hampshire d/b/a Eversource Energy – Petition for License to Construct and Maintain Electric Lines Over and Across the Warner River in the Town of Webster and in the Town of Sutton, New Hampshire

Dear Ms. Howland:

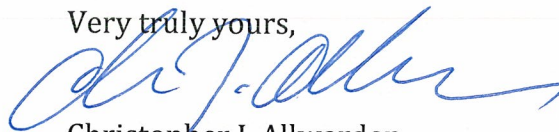

Enclosed for filing with the Commission please find the original and six copies of Public Service Company of New Hampshire d/b/a Eversource Energy's Petition for License to Construct and Maintain Electric Lines Over and Across the Warner River in the Town of Webster and in the Town of Sutton, New Hampshire, with attached Exhibits. Pursuant to the Commission's rules, an electronic filing of the enclosed Petition and the Exhibits is also being made with the Commission on this date.

Eversource respectfully requests that the Commission issue an Order *Nisi* with respect to this water crossing license application. As noted in the Petition, the proposed new crossings are associated with PSNH's rebuild of certain segments of PSNH's existing 317 line. This line project has a proposed construction start time of Spring, 2015. Therefore, we would appreciate any steps which can be taken at the Commission to expedite the handling of this filing.

Should there be any technical questions regarding this filing, they may be directed to Eversource's Supervisor-Civil Engineering, James F. Mayo, P.E., who can be reached at 634-2254.

Thank you for your attention to this matter.

Very truly yours,

Christopher J. Allwarden
