**NORTHERN UTILITIES, INC.**

**2015 Summer Period Cost of Gas Adjustment**

**ORDER OF NOTICE**

On March 17, 2015, Northern Utilities, Inc. (Northern) filed with the New Hampshire Public Utilities Commission (Commission) its proposed cost of gas (COG) rates for the summer period, May 1, 2015, through October 31, 2015. Included in the filing were revised tariff pages, prefiled testimony, and supporting materials for the proposed rates. The petition and subsequent docket filings, other than any information for which confidential treatment is requested of or granted by the Commission, will be posted to the Commission's website at <http://www.puc.nh.gov/Regulatory/Docketbk/2015/15-090.html>.

The proposed residential COG rate is \$0.3333 per therm, a \$0.3167 per therm decrease from the weighted average residential COG rate of \$0.6500 per therm for last summer. The proposed change to Northern's residential COG rate, combined with other rate changes since last summer (actual and proposed), is expected to decrease a typical residential heating customer's bill for the entire summer by approximately \$35.77, or 12.09 percent, compared to last summer. Standing alone, the lower residential COG rate proposed in this docket will reduce a typical residential heating customer's bill by \$45.78 as compared to last summer's COG rate.

The proposed commercial/industrial low winter use COG rate is \$0.2739 per therm and the proposed commercial/industrial high winter use COG rate is \$0.3690 per therm, decreases from last summer's weighted average COG rates of \$0.5883 and \$0.6904, respectively.

The filing also proposed changes to the Local Distribution Adjustment Clause and described Northern's current hedging program. The customer impact analysis included Northern's Step 2 Adjustment filed in February 2015, but did not include the anticipated refund from Portland Natural Gas Transmission System (PNGTS), which Northern anticipates will be substantial. Northern proposed to flow the refund to customers over a three year period and stated it will update its filing to reflect the PNGTS refund later in this docket.

The filing raises, inter alia, issues related to: RSA 378 and the justness and reasonableness of rates, fares, and charges; the reasonableness of sales forecasts, supplier prices, and transportation prices; reconciliation of prior period costs and revenues; the causes and treatment of a prior period under-recovery and supplier refund credit; purchasing decisions related to the current and past summer supplies and capacity; revenue projections related to transportation services and released capacity; cost allocations between the New Hampshire and Maine Divisions; and revenues and rate impacts resulting from the proposed rate changes. Each party has the right to have an attorney represent the party at the party's own expense.

**Based upon the foregoing, it is hereby**
