

**STATE OF NEW HAMPSHIRE**

## Inter-Department Communication

**DATE:** June 3, 2015**AT (OFFICE):** NHPUC

*ML*  
**FROM:** Michael Ladam, Assistant Director of Telecommunications

**SUBJECT:** CRS 15-120, License by Notification of Existing Crossing on Existing Poles

**TO:** Debra Howland, Executive Director

On April 8, 2015, MetroCast Cablevision of New Hampshire, LLC (MetroCast) submitted a written notification to the Commission pursuant to RSA 371:17-b, of the existence of 125 crossings of public waters by aerial cables owned by MetroCast. In response to a Staff request for additional data, MetroCast supplemented its filing on June 2, 2015. The notification now includes:

- a) A description of each specific geographic location, which in this instance includes decimal degree coordinates as used in global positioning systems;
- b) A description of each pole location;
- c) An assertion that these crossings were in place as of June 19, 2013.

In Staff's assessment the notification meets all the requirements of RSA 371:17-b, and therefore a license for this crossing may be issued pursuant to RSA 371:20.
