Subject: The number of the petition is DW15-209 order #25809 dated September the 4th. Order suspending tariffs and scheduling prehearing conference for water rate increases.

To Whom It May Concern,

I am a property owner in the Indian Mound Property Owners Association. My family typically only uses our Center Ossipee home in the Winter Months. We currently pay a higher annual water bill in Center Ossipee, then we do at our full time residence in Massachusetts, where we run a lawn sprinkler system. An increase again will be an unobtainable financial disservice to all residents.

Sincerely,

Jaime Burge
23 Latties Lane
Center Ossipee
