Re: October 2016 monthly cost of energy over/under report (DG 15 - 377)

Dear Ms. Howland,

Enclosed is the October 2016 over/under report. The October 2016 report is hereby filed to reflect the actual fuel costs from November 2015 through September 2016 and projected costs for October 2016.

There was an eleven percent (12%) decrease in steam sales in the anticipated steam sales due to warmer weather than anticipated during the reporting period. The result is a forecasted under-collection is \$86,963. Because this under-collection is approximately 3% of the overall expected fuel costs for the year and all of the costs for November 2015 through September 2016 have not been fully reconciled, we are not adjusting the COE rate at this time.

The September 2016 tariff was \$30.26/mlb in accordance with the 66th revised page 11 filed with the August 2016 report and the October 2016 rate is to remain unchanged at \$30.26.

If there are any questions please call me.

Yours Truly,

Mark E. Saltsman,
Vice President
