PUBLIC UTILITIES COMMISSION

21 S. Fruit Street, Suite 10
Concord, N.H. 03301-2429

June 29, 2018

Jim Van Valkenburgh
Froling Energy
590 Hancock Road
Peterborough, NH 03458

Re: REC 16-217, Whelen 1, Building #1, Request for Approval of an Alternative Compliance Method for Calculating Thermal REC Generation Due to Meter Malfunction for 2018 Quarter 1, and Related Waiver of Puc 2506 Metering and Calculation Requirements

Dear Mr. Van Valkenburgh:

On June 25, 2018, you filed on behalf of Whelen Engineering's Building #1 (referred to as "Whelen 1" NON60530 in the New England Power Pool Generation Information System (NEPOOL GIS)), a request that the Commission approve an alternative method to allow Whelen 1 to obtain renewable energy certificates (RECs) for useful thermal energy produced, but not metered, due to a meter failure at their thermal biomass facility during the first quarter (Q1) of 2018.

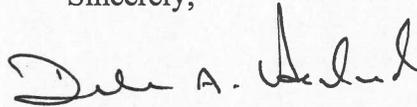

On June 27, 2018, Commission Staff (Staff) filed a memorandum summarizing its analysis of Whelen 1's request to use the alternative compliance method for determining T-REC production for those time periods. Staff interpreted the request as effectively a request for a waiver of the otherwise applicable metering and calculation requirements set forth in Puc 2506. Staff concluded that the Whelen 1 request to use the proposed alternative compliance method of calculating T-REC production on a one-time basis for limited time periods is reasonable under the circumstances, and a rules waiver is the appropriate means of facilitating use of that alternative compliance method. Staff recommended that the Commission approve Whelen 1's proposal to use the alternative compliance method by granting a one-time limited waiver pursuant to Puc 201.05 of the otherwise applicable metering and calculation requirements of Puc 2506 to permit the alternative calculation of T-RECs for Q1 2018.

The Commission has reviewed the Whelen 2 request and Staff's recommendation and has determined that a rule waiver may be granted in this instance under Puc 201.05 because the one-time limited waiver proposed would not disrupt the orderly and efficient resolution of matters before the Commission and would serve the public interest inasmuch as compliance with the rules would be onerous given the circumstances of the affected person and the purpose of the rules would be satisfied by the alternative method proposed.

REC 16-217, Whelen 1, Building #1, Request for Approval of an Alternative Compliance Method for Calculating Thermal REC Generation Due to Meter Malfunction for 2018 Quarter 1, and Related Waiver of Puc 2506 Metering and Calculation Requirements Page 2 of 2

Accordingly, the Commission has granted the Whelen 1 facility a one-time limited waiver of the otherwise applicable metering and calculation requirements set forth in Puc 2506 to calculate T-REC eligibility for Q1 2018 using the proposed alternative compliance method.

Sincerely,

Debra A. Howland
Executive Director
