ELECTRIC AND GAS UTILITIES
2017 Core Electric Energy Efficiency Programs and Natural Gas Energy Efficiency Programs
Order Suspending Proposed Tariffs and Scheduling a Prehearing Conference
O R D E R N O. 25,946
September 30, 2016

On September 28, 2016, Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities, New Hampshire Electric Cooperative, Inc., Public Service Company of New Hampshire d/b/a Eversource Energy, and Unitil Energy Systems, Inc. (collectively, the Electric Utilities); together with Liberty Utilities (Energy North Natural Gas) Corp. d/b/a Liberty Utilities and Northern Utilities, Inc. (collectively, the Gas Utilities) jointly filed proposals for the 2017 Core New Hampshire Energy Efficiency Programs and related tariffs for approval by the Commission. The proposals, tariffs, and subsequent docket filings, other than any information for which confidential treatment is requested of or granted by the Commission, will be posted to the Commission's website at http://www.puc.nh.gov/Regulatory/Docketbk/2014/14-216.html.

Funding for the Core electric energy efficiency programs is provided through the System Benefits Charge (SBC) paid by the Electric Utilities' customers and is supplemented by funds available through the Independent System Operator-New England's Forward Capacity Markets and the Regional Greenhouse Gas Initiative. Funding for the Core natural gas energy efficiency programs is provided through the Local Delivery Adjustment Clause (LDAC) paid by Gas Utilities' customers. Any unspent funds from any given program year for both the Electric Utilities and Gas Utilities are carried forward to the following year's budget, pending interyear loans at the time the proposed Core electric and gas energy efficiency programs are designed to be consistently available across New Hampshire with equal access for all eligible consumers, subject to the available budget.

The Electric Utilities and Gas Utilities seek program approval in accordance with the Settlement Agreement approved by the Commission in Order 25,932 (August 2, 2016), wherein the Commission approved the extension of the Core program through 2017, subject to Commission approval of the specific program proposals. Consistent with the Settlement Agreement, the Electric Utilities propose changes to the SBC to recover the costs of the 2017 Core programs' performance incentives and lost base revenues. The Gas Utilities seek recovery of the 2017 program costs, performance incentives, and lost base revenues through the LDAC which is under review in each gas utilities' Cost of Gas proceeding. The filings, inter alia, assess issues related to RSA 374-F:3, X and whether the proposed 2017 Core programs are reasonable, cost effective, and in the public interest; whether the proposed programs will properly utilize funds from the Energy Efficiency Fund as required by RSA 125-O:23; and whether, pursuant to RSA 374-2, the Electric Utilities' and Gas Utilities' proposed calculations of performance incentives and lost base revenues are just and reasonable and comply with Commission orders. Each party has the right to have an attorney represent the party at the party's own expense.

We will suspend the proposed tariffs filed on September 28 to allow them to be investigated pursuant to RSA 378:6, I (b). In the absence of such suspension, the tariff amendments would become effective 30 days after filing under RSA 378:3.

Based upon the foregoing, it is hereby

ORDERED, that the proposed tariffs are hereby suspended pursuant to RSA 378:6, I(b) pending investigation and further order of the Commission; and it is

FURTHER ORDERED, that a prehearing conference, pursuant to N.H. Code Admin. Rules Puc 203.15, be held before the Commission located at 21 S. Fruit St., Suite 10, Concord, New Hampshire on October 20, 2016 at 10:00 a.m., at which each party will provide a preliminary statement of its position with regard to the application and any of the issues set forth in N.H. Code Admin. Rules Puc 203.15, and it is

FURTHER ORDERED, that immediately following the prehearing conference, Electric Utilities and Gas Utilities, the Staff of the Commission, and any interveners hold a technical session to review the proposals and tariffs and allow the Electric Utilities and Gas Utilities to provide any amendments or updates to the filings; and it is

FURTHER ORDERED, that pursuant to N.H. Code Admin. Rules Puc 203.12, Electric Utilities and Gas Utilities shall notify all persons desiring to be heard at this hearing by publishing a copy of this Order no later than October 10, 2016 in a newspaper with general circulation in those portions of the state in which operations are conducted; publication to be documented by affidavit filed with the Commission on or before October 21, 2016; and it is

FURTHER ORDERED, that consistent with N.H. Code Admin. Rules Puc 203.17 and Puc 203.02, any party seeking to intervene in the proceeding shall submit to the Commission seven copies of a petition to intervene with copies sent to the Electric Utilities and Gas Utilities and the Office of the Consumer Advocate on or before October 18, 2016, which petition states the facts demonstrating how its rights, duties, privileges, immunities or other substantial interest may be affected by the proceeding, as required by N.H. Code Admin. Rules Puc 203.17 and RSA 541-A:32, I(b) and it is

FURTHER ORDERED, that any party objecting to a petition to intervene make said objection on or before October 24, 2016; and it is

FURTHER ORDERED, that the Public Utilities Commission of New Hampshire this thirtieth day of September, 2016.

NORTHERN NEW ENGLAND TELEPHONE OPERATIONS, LLC
Petition for Licenses to Maintain Utility Cables Over and Across Public Lands and Waters of the State of New Hampshire
Summary of Order *Nisi* No. 25,949 Granting Licenses
September 30, 2016

On September 30, 2016, the Commission granted licenses to Northern New England Telephone Operations, LLC (FairPoint) pursuant to RSA 371:17 to operate and maintain 53 existing telecommunications cable crossings over public waters and/or state-owned lands as listed below. FairPoint represented in its petition requesting the licenses that the crossings are necessary to meet the reasonable requirements for service to the public, and have been in place for an extended period of time without complaint or detriment to the public use and enjoyment of the public lands and waters. FairPoint also represented that the existing crossings were constructed in accordance with then applicable safety standards and are currently maintained in compliance with established safety standards as set forth in the National Electrical Safety Code. FairPoint stated that, where required, the crossings are also in compliance with attachment and/or occupancy licenses issued by the owners of the attachment or landing points. Commission Staff reviewed the petition and recommended that the licenses be granted, provided that the crossings are operated and maintained in conformance with applicable sections of the National Electrical Safety Code.

The petition and subsequent docket filings, other than any information for which confidential treatment is requested of or granted by the Commission, are posted to the Commission's website at http://puc.nh.gov/Regulatory/Docketbk/2016/16-219.html.

The Commission granted FairPoint's request for licenses to operate and maintain the existing crossings of public lands and waters by order *nisi* dated September 30, 2016, subject to certain conditions related to the safe operation and maintenance of the crossings. The Commission granted the order on a *nisi* basis to ensure that the public receives notice of this docket and has an opportunity to request a hearing. All persons interested in responding to the Commission's action may submit comments and/or a written request for a hearing, which states the reason and basis for a hearing, no later than October 17, 2016. Any person(s) requesting such comments and requests for hearing shall do so no later than October 24, 2016. Following consideration of any comments and requests for hearing received, the Commission may further extend the final effective date of its order. Nonetheless, unless the Commission orders otherwise in the order *nisi*, it shall become final and effective on October 30, 2016.
