Re: DRM 16-829, Rulemaking N.H. Code Admin. Rules Puc 2500
Electric Renewable Portfolio Standard (RPS) Technical Session

To Interested Persons:

The Commission has scheduled a second technical session to be held on **Tuesday, March 21, 2017, at 1:00 p.m.**, at the Commission's offices. The technical session will focus on the development of rules specific to the inclusion of biodiesel production for RPS Class I eligibility and cover the following topics:

1. Certification requirements and application process
2. Qualifications and role of independent monitors
3. Procedures and documentation requirements for issuing RECs
4. End user efficiency ratings
5. Metering and reporting requirements
6. Role of the Department of Environmental Services
7. Large volume biodiesel end-users and the thermal REC program
8. EPA Renewable Fuel Standard (RFS) program and RIN certification

Commission Staff expects to circulate a more detailed outline of issues to be addressed and potential approaches to be discussed approximately one week before the March 21st technical session.

The Commission will schedule a separate technical session at a future date to discuss potential changes to the Puc 2500 rules that are unrelated to biodiesel production.

Sincerely,

A handwritten signature in cursive script, appearing to read "Debra A. Howland".

Debra A. Howland
Executive Director
