Dear Ms. Howland,

Several years ago, while still living in Richmond, NH, many of us who are property owners fought hard and tirelessly against the proposed "NED" pipeline. Luckily for wildlife, the environment and human life, we prevailed!!

Now here I am, newly moved to Keene and facing an environmental threat again! Basically from the same company, as Liberty Utilities is a subsidiary of Kinder Morgan!!

I am very concerned about Liberty Utilities becoming a back door entrance into NH for Kinder Morgan in the future and I am strongly expressing my opposition to this.

Thank you for listening, Terri O'Rorke Keene
