Rate D-11 Battery Storage Pilot

Availability

Retail Delivery service under this rate is available for domestic purposes in an individual private dwelling to selected customers presently served under Rate D, by which they have chosen to participate in the Battery Storage Pilot, utilizing Tesla Powerwall 2 batteries behind their meter.

The availability of this rate will be subject to the Company's ability to obtain the necessary meters and to render such service.

Character of Service

Service supplied under this rate will be single phase, 60 cycle, alternating current, normally three-wire service at a nominal voltage of 120/240 volts or three-wire 120/208 volts, whichever is available at the location.

Pilot Requirements

This program is applicable to customers who agree through a signed contract to install Tesla Powerwall 2 battery equipment and allow the Company to control such equipment.

Customer Responsibilities

The Customer is required to sign the Customer Agreement prior to installation of the Powerwall 2.

The Customer that participates in the pilot shall pay the monthly rate of $50 for a minimum of ten (10) years, or contribute $4,866 upfront to the cost of the batteries. Customers who have purchased premises with a Company-owned Powerwall 2 will be required to continue to pay the monthly rate of $50 for the remainder of the ten year obligation period.

The Customer is required to own and occupy the premises where the Powerwall 2 battery equipment is installed.

Customers shall be required to maintain reliable communications with the Powerwall 2 system.

The Customer is responsible for compliance with all warranty requirements as described in the Customer Agreement. The Company shall provide the Customer with the warranty requirements.

In the event that the Customer does not stay current with the monthly rate for the Powerwall 2 system, the Company may require return of the equipment with proper notice.

Company Responsibilities

The Company shall have the ability to control the Powerwall 2 equipment at its sole discretion for the entire period of installation.

The Company will provide installation for the Powerwall 2 battery.

The Company shall maintain Company-owned equipment consistent with warranty requirements.

Control Credits

The Company will have control to dispatch the Powerwall 2 battery during predicted peak events. Customers who allow the Company to install the Powerwall 2 battery will receive the net metering credit in accordance with Order No. 26,029 dated June 23, 2017 when the Company dispatches the battery for peak events and exports energy through the bidirectional meter at the premises.

Rates per Month

The rate per month will be the sum of the applicable Customer and Energy Charges subject to the adjustments in this tariff:

Rates for Retail Delivery Service

Customer Charge	$14.67 per month
Monthly Battery Charge	$50.00

Energy Charges Per Kilowatt-Hour (cents per kilowatt-hour)

Distribution Charge Off Peak	0.03515
Distribution Charge On Peak	0.05269
Distribution Charge Critical Peak	0.07502
Reliability Enhancement/Vegetation Management	0.00052
Total Distribution Charge Off Peak	0.03567
Total Distribution Charge On Peak	0.05321
Total Distribution Charge Critical Peak	0.07554
Transmission Charge Off Peak	0.00092
Transmission Charge On Peak	0.00228
Transmission Charge Critical Peak	0.14544
Energy Service Charge Off Peak	0.08325
Energy Service Charge On Peak	0.09973
Energy Service Charge Critical Peak	0.10354
Stranded Cost Adjustment Factor	(0.00106)
Storm Recovery Adjustment Factor	0.00000
