**Re: Liberty Utilities (EnergyNorth Natural Gas) Corp. d/b/a Liberty Utilities – Keene Division
Tariff Change Filing**

Dear Ms. Howland:

Enclosed for filing please find redlined and clean versions of Liberty Utilities – Keene Division's second revised Tariff page 17. The revision to page 17 inserts a description of the heat content calculation, instead of the fixed value now in the tariff, which is consistent with the EnergyNorth calculation and allows the value to be more accurate. Under the current language in the tariff, the heat content used to determine therms used by customers in the Keene Division is a fixed amount. The revised language explains the calculation, producing values with the same end result as the prior static amount, albeit to more decimal places, resulting in increased accuracy.

The Company recently completed the changeover of the billing system for its Keene Division to its Cogsdale billing system. Cogsdale utilizes a formula for determining heat content rather than a static amount, resulting in a more accurate value. Thus, the Company respectfully asks for a prompt Commission order pursuant to Puc 1603.07(a)(2), or for the Commission to waive the 30 day notice period of Puc 1603.07(a)(1) and allow the tariff change to go into effect immediately. A waiver under Puc 201.05 is appropriate because this tariff change is ministerial, and will not disrupt any matters before the Commission.

Thank you for your assistance with this matter. Please do not hesitate to call if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "David B. Simek". The signature is fluid and cursive.

David B. Simek
