RE: DG 17-198 Liberty Utilities Granite Bridge Project

Dear Ms. Howland,

This is a request for information pursuant to Puc 104 and Puc 201.07. Please file this letter as a public comment.

As a new resident to NH I have been delighted by the local awareness of energy issues. I was concerned to find out that a new pipeline project is being developed which will only hinder the reduction of greenhouse gas emissions, and provide significant risk and burden to the rate-payer. I was further concerned to find out that due to the redacted documents presented, the public have not been able to fully scrutinize the proposal.

I request unredacted copies of all documents which Liberty Utilities submitted in support of its Granite Bridge petition, as identified in its motion for protective order. For the reasons explained in the opposition to that motion, filed by the Office of Consumer Advocate, I ask that the motion for protective order be denied and unredacted copies be made public immediately.

Thank you for your consideration.

Sincerely,
Luke Boyden
