Since the city take over of Pennichick Water Works in 2011 my bill went from approximately \$50 per quarter to approximately \$50 per month an increase of 200% my current bill is approximately \$100 per month another 100% increase. That's a 300 % increase in 8 years and you want more! I cannot believe that the previous owners didn't budget for necessary upgrades, improvements and repairs. I also cannot believe that the city doesn't have any plans for above mentioned items.

I think a 300% increase is way to much in 8 years. If had gotten half of that in wage increases, i might own the water works at least retired early and wealthy.
