Re: DT 19-109
Vermont Transco LLC
Petition for License to Construct and Maintain Fiber Optic Cable Across Connecticut
River and Sugar River in the City of Claremont
Petition Supplement – Section 10 Letter of Permission

Dear Ms. Howland:

On behalf of Vermont Transco LLC (“VT Transco”), this letter is submitted in connection with the petition in the above-referenced docket dated June 11, 2019. Attached to this letter and marked as **Exhibit 7** is a Section 10 Letter of Permission dated as of August 9, 2019 from the U.S. Army Corps of Engineers, authorizing the installation of the fiber optic cable across the Connecticut River (“LOP”). Given the LOP, VT Transco seeks to delete and replace the statement in Paragraph 30 of the Petition as follows:

30. VT Transco has received a Letter of Permission from the U.S. Army Corps of Engineers pursuant to Section 10 of the federal Rivers and Harbors Act of 1899 for the portion of the Project spanning the Connecticut River.

We trust that this supplement and the LOP will assist in processing the petition. As mentioned in the original petition, VT Transco is hoping to complete the work this September when conditions are optimal. We thank the Commissioners and staff in advance for their review

Sincerely,

William J. Dodge

WJD:tmr
