RE: Docket No. DE 19-139  
Public Service Company of New Hampshire d/b/a Eversource Energy

2019 Least Cost Integrated Resource Plan – Revised Attachments

Dear Director Howland:

On August 23, 2019 Public Service Company of New Hampshire d/b/a Eversource Energy (“Eversource”) submitted its 2019 Least Cost Integrated Resource Plan and supporting documentation as contemplated by Order No. 26,262 (June 14, 2019) in Docket No. DE 15-248. Included as supporting documentation were a series of attachments, some of which contained Confidential Energy Infrastructure Information (“CEII”). While some of the CEII material was provided in confidential and redacted forms, other material was removed from the attachments entirely. This removal related to maps and one-line diagrams in Attachments I, L, M, N, and R.

Following discussions during the September 25, 2019 prehearing conference and technical session, Eversource reviewed the information that it had removed from the attachments. Though the material was CEII, and though Eversource contends that it had a good faith reason for removing it, Eversource has determined to resubmit the above-referenced Attachments with the material included. Eversource has appropriately marked the material as confidential and submits that it is covered by the motion for confidential treatment filed by Eversource on August 23. Eversource requests that the revised confidential and redacted versions of Attachments I, L, M, N, and R included with this letter be substituted for the versions of the documents initially provided.

If you have any questions, please do not hesitate to contact me. Thank you for your assistance with this matter.

Very truly yours,

A handwritten signature in blue ink, appearing to be "MFossum".
