Dear PUC,

I am writing as a Steering Committee of the Pemi Climate Emergency Coalition. We are a diverse group of NH citizens concerned about the importance of wise energy use choices.

We believe that the 'Energy Efficiency Plan', years in the making, is such a wise approach. We believe that the recent opposition by nine members of the ST+E Committee is penny wise and pound foolish.

To survive the long term effects of carbon emissions, we must think years into the future. The Energy Efficiency Plan does just that.

Thank you for your consideration,
