Subject: Energy Efficiency Plan support

EXTERNAL: Do not open attachments or click on links unless you recognize and trust the sender.

Greetings,

I am writing to voice my strong support for the Energy Efficiency Plan being considered at the PUC.

Despite the recent opposition of a few state senators the results of efficiency efforts in other projects are clear: the benefits clearly offset the costs. Improving energy efficiency offers long term reductions in use and cost, and create a more stable and resilient energy system in our state. In addition, the plan can create new jobs for NH residents that contribute to our overall well-being.

I strongly support the Energy Efficiency Plan, and hope the PUC will support it so we can move New Hampshire into the future, instead of staying mired in the past as a result of scare tactics about short term cost increases.

Thank you and be well,
