> Dear PUC, (Attention: Debra Howland)

> I am writing to express support for the Energy Efficiency Program. In the works for several years and now pending at the PUC, it will inject \$350 million into the NH economy, putting local people to work, saving money for every electric/ natural gas utility customer, and moving the state away from fossil fuel consumption. Please proceed with the EEP without delay, to advance this important path to sustainable energy in New Hampshire.
