PUC Director Debra Howland,

In this era of pending climate change disasters, the promotion of energy efficiency is not only a laudable goal, but a necessary one.

As a low use electricity consumer, I have benefitted from the NH Saves Program by lowering my usage by 50%. Similar gains can be realized by high energy users, and have a meaningful impact on lowering everybody's dependency on fossil fuels.

Not only are these energy efficiency programs good for all humanity, but this plan will benefit the NH economy directly. I wish to add a "thumbs up" to the recently proposed three year 'Energy Efficiency Program.' Thank you.
