---

Hello,

@PUC: I got work done by TurnCycle Solutions to get insulation blown between the walls of my condo at 70 Stillwater Dr. in Nashua NH. It's been way more air tight since insulation was blown into the walls and I would not have been able to get the work done without the NH Save rebate program. NH Saves rebate program is one worth saving (over so many other useless, worthless entitlement programs). It requires beneficiaries to "buy in" by putting in 50% of the cost, saves energy, provides good jobs for the workers and is good for the environment. Please preserve it.

@Honorable Gov Sununu: NH is a common sense state. Why are we killing the NH Saves rebate program? It's one program that actually makes sense for the people of NH! Homeowners kick in 50% of the cost of insulation and NH Saves rebate kicks in the other 50%. It saves energy, provides good jobs for the workers and is good for the environment. Please review and influence situation to preserve it.

Very Respectfully,

Rudy Chakravorty

70 Stillwater Drive

Nashua, NH 03062
