Hello-

I received a letter from Liberty Utilities stating that they are trying to increase the delivery rate they charge via Docket No: DG 20-105.

Is there a another provider that I could have for my gas distribution supplier? If not then I think it wouldn't be fair to approve the rate increase. My former supplier of Propane Gas had warned me when we switched over to the Natural Gas that Liberty would wait until they got in all the homes and then start consistently asking for rate increases. Sadly that seems to be accurate in this case.

Please let me know if there is another company/distributor option for me to decide between with respect to my gas.

Thank you.
