

Dear sir,

As a new resident of Litchfield that is on a fixed income I find Pennichuck Waters request for a 20%increase unconscionable, especially during the current economic downturn caused by COVID-19. How is it that we're being asked to pay 3 times what Hudson pays for water and 5 times what Manchester pays for their water if this request should be allowed to occur.

I respectfully request their request for a 20% rate hike be denied.

Warmest Ragards,  
Steven
