

Raising the water rates for Litchfield is unconscionable! I have lived in Litchfield for 15 years after moving in from Hudson. In the 34 years I lived in Hudson I can say I never had a water issue. Since I moved to Litchfield I have had water issues on a regular basis. It is a disgrace for what we are paying and what we are getting! I can't even water my lawn. My summer bill has hit the \$400+ just for watering my lawn. Who can afford that? I am on a fixed income and can't afford another increase!

Why is there such a discrepancy in rates from town to town??

- Litchfield's rates will be \$9.42 per unit of water
- Hudson pays \$3.30
- Merrimack is \$2.32 and
- Manchester is \$1.64.

We pay between 2.9 times and 5.7 times more than our neighbors

These rates are sinful and shameful! Please reconsider.
