Re: Docket No. DE 20-170; Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Electric Vehicle Time of Use Rates – Compliance Tariff

Dear Chairman Goldner:

In compliance with Order No. 26,604 (April 7, 2022) in the above docket, attached please find the following updated tariff pages implementing the seasonal adjustments to the Company's EV rates D-11, D-12, EV-L, and EV-M:

- Twenty-first Revised Page 123
- Twenty-first Revised Page 125
- Twenty-third Revised Page 126
- Twenty-fourth Revised Page 127
- Eighth Revised Page 128
- Tenth Revised Page 129
- Tenth Revised page 133

Note that the Company discovered an error in the model that generates Rates EV-L: and EV-M, which model was created by a consultant to then Commission Staff and approved by the Commission in Order No. 26,604. The error causes the rates to be significantly higher than they should be. (The separate model that calculates the residential EV rates D-11 and D-12 does not suffer from the same error.)

The Company elected to file these updated -- and incorrect -- rates because it does not have authority to file any other rates as they flow from the Commission approved model. However, the Company will work with the Department of Energy and others to determine the best course for resolving the issue with the model.

Daniel Goldner, Chairman

Note that there are no customers taking service under Rates EV-L or EV-M, thus the error will have no customer impact while the parties develop a solution.

Thank you.

Sincerely,

A handwritten signature in cursive script, appearing to read "M. Sheehan".

Michael J. Sheehan
