**Re: Docket No. DE 20-170; Electric Distribution Utilities
Electric Vehicle Time of Use Rates**

Dear Ms. Howland:

The Order of Notice in this docket, issued pursuant to Order No. 26,394 (Aug. 18, 2020), opened a new proceeding “to consider utility-specific electric vehicle time of use (EV TOU) rate proposals,” and for “Staff to further develop the alternative metering feasibility assessment concept described in the order, with the input of the parties to the new proceeding.” The purpose of this docket is thus to facilitate the development and subsequent review of utility-specific EV TOU rate proposals.

On behalf of Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty, enclosed for filing please find the *Testimony of Heather Tebbetts and Melissa Samenfeld*, with supporting schedules and tariff language, which proposes separately-metered small commercial customer applications, and for separately-metered high demand draw commercial customer applications. (The Commission approved Liberty’s residential TOU vehicle charging tariff in Order No. 26,376 (June 30, 2020)).

Pursuant to the Commission’s March 17, 2020, secretarial letter, only an electronic version of this filing will be provided. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read 'M. Sheehan', written in a cursive style.

Michael J. Sheehan
