In early 2020, the Maryland PSC denied the electricity supplier application of Mega Energy of New Hampshire, LLC's affiliate, Mega Energy of Maryland, LLC, due to the informal customer complaints in other states. The PSC Staff cited one informal complaint in CT, 44 inquiries in IL, 21 in MA, 5 in NH, 20 in OH, and 38 in TX. Since mid-2019, Mega Energy has reformed internal procedures related to inbound/ outbound telemarketing vendor selection and to inbound customer inquiries. As a result of these improvements, Mega Energy has materially reduced improved informal sales & marketing complaints statistics and the speed at which we respond to Staff inquiries and the quality and completeness of said responses. Mega Energy takes pride in offering the best possible service to our customers and we review each and every complaint in efforts to continually improve our operations. Mega Energy plans to re-submit a Maryland power license application in the first half of 2021.

Mega Energy's rate does not include other costs, including but not limited to, the price of transmission & distribution, the system benefits charge, stranded cost recovery charge, and taxes. These costs will continue to be billed by the Utility. Your Utility Delivery Charges are itemized separately on the bill they send to you. The rate may change during the agreed term if a.) new or modified usage fees and costs are imposed by your EDC or the regional

Independent System Operator ("ISO"), b.) cost changes to ISO administered capacity markets or market design, or c.) cost changes resulting

from federal, state, and local laws. You understand that these limited circumstances and associated price changes are beyond our control. As such, you will allow us to pass through the economic effects to you at cost and without markup. We will use reasonable methods to provide advance notice to you.

A contract expiration notice will be sent to you at least forty-five (45) days prior to the end of your Term. The expiration notice will explain your options for renewing your Agreement with Mega Energy. If you do not choose another option at least 3 business days prior to the last meter read date of the Initial Term, upon the contract's expiration, you will automatically continue to be served by Mega Energy pursuant to a variable rate plan on a month-to-month basis unless you select another product or electric supplier.

The price you pay under the variable rate plan shall be adjustable each month at Mega Energy's reasonable discretion based upon then-applicable market price related factors which include, but are not limited to, costs for electricity, ancillary services and capacity costs, plus Mega Energy's costs, expenses and margins. The variable rate plan will automatically renew for successive one (1) month periods unless either party notifies the other party in writing of its desire not to renew, at least thirty (30) days prior to the next meter read date.

postmarked date of this agreement if sent by first class U.S. mail and if enrollment took place in person at your residence ("Rescission Period"). To rescind this Agreement, contact us by phone at 1-855810-6342 or by email at [info@megaenergyllc.com](mailto:info@megaenergyllc.com) or by mail at Mega Energy, 2150 Town Square Place., Suite 711, Sugar Land, TX 77479. Any cancellation after the Rescission Period shall be subject to the "Cancellation/Termination" provisions.

**Credit Requirement:** Mega Energy reserves the right to conduct a credit review prior to providing you electricity supply service, and to refuse electricity supply service if you do not meet Mega Energy's credit standards. You agree to provide Mega Energy with any information reasonably requested in order to complete the credit review including but not limited to establishing an ACH Debit relationship with Mega Energy. If, prior to commencing electricity supply service or at any time during the Term of this Agreement, Mega Energy has good faith concerns about the creditworthiness of customers, Mega Energy may conduct a credit review and if customer is a commercial account may ask customer to provide reasonable credit assurances acceptable to Mega Energy. Further, for commercial accounts, Mega Energy reserves the right to require a deposit before providing electricity supply service.

**Deposits & Interest on Deposits:** The interest rate on deposits is found on the New Hampshire PUC website at:

<http://www.puc.state.nh.us/Consumer/PrimeRates.html>

**Billing and Payment:** You will receive your monthly bill from your Utility that includes the Mega Energy generation service charge and Utility delivery charge plus taxes. You will make payments for both the Mega Energy generation

service charge and the Utility delivery charges directly to your Utility in accordance with your Utility's payment terms and due date. Payments are due on the date determined by your local Utility and stated on your local Utility bill. Bills not paid by their due date are subject to a late payment fee. Please consult your Utility's tariffs for information regarding late fees on delinquent payments, termination of service for non-payment, security deposits, payment arrangement plans, and other payment and credit terms.

**Cancellation/Termination:** To cancel this agreement, you may call, email, or write Mega Energy or your local Utility at the contact information provided below, or contract with an aggregator granted agency authority or contract with a new CEPS for electricity supply. Residential and small commercial customers have the right to change CEPS at any time with no advance notice requirement, subject to the payment of termination fees as described below. When you cancel services, you agree to pay for the services provided by Mega Energy through the date you are switched to another electric supplier or returned to the Utility for service. Your cancellation will not be effective until the next regularly scheduled meter-reading date which follows the date on which Mega Energy gives the Utility notice of your cancellation request. You are responsible for all charges incurred through the date on which cancellation and the resultant switch is effected by the Utility.

If you terminate after the Rescission Period, Mega Energy may charge you a cost recovery fee as indicated in Early Termination Fee of your Contract Disclosure Summary. If you are not a residential customer, the cost recovery fee will be an amount calculated, in our reasonable discretion, as the product of (i) unconsumed electric energy for the balance of your Term based on historical usage and (ii) the price per

## Residential and Small Commercial Terms of Service

kWh agreed to and set forth on the Contract Disclosure Summary. The cost recovery fee is not a penalty but is intended to recover our cost in procuring a reliable, fixed price supply of electricity on your behalf. Should this remittance become delinquent, and Mega Energy retains an agency to collect the past due amount, you agree to pay a 30% collections surcharge in addition to the amount due.

Mega Energy reserves the right to cancel this agreement (i) if your Utility is unable to read your meter for three (3) consecutive months unless failure to read the meter is not the fault of the customer; (ii) if at any time you request separate bills from your Utility and Mega Energy. If this occurs, we will notify both you and your Utility of the cancellation of this agreement at least 3 days prior to the effective date of cancellation. It may take up to (60) days for Customer's account(s) to be returned to the Utility depending on Utility cancellation procedures.

**Dispute Resolution:** You should contact Mega Energy regarding any dispute related to this Agreement. Mega Energy will attempt to resolve the dispute in an efficient, fair and timely manner. Mega Energy will provide a response within (14) business days. Mega Energy will report the results of its investigation to you. If you are not satisfied with our attempt to resolve the problem or if you have questions about your rights and responsibilities, you may seek assistance from the New Hampshire Public Utilities Commission at 1-800-852-3793, 21 South Fruit Street, Suite 10, Concord, NH 03301-2429. Customer must pay the bill in full, except for the specific disputed amount, during the pendency of the dispute.

**Customer Information Release Authorization:** By entering into this agreement and accepting the terms of service you affirmatively consent

to the Utility sharing billing and payment information with us, including any participation in budget billing or extended payment arrangements. You agree that your Utility may release to us certain information that we need to provide you with service, including but not limited to your address, telephone number, account numbers, historical usage information, peak electricity demand and payment history. We will not release information to any unaffiliated third party without your consent unless, except as otherwise permitted under PUC 2004.19 or if we are required to do so by law. This authorization will remain in effect during the Term of this Agreement. Mega Energy agrees not to release confidential customer information (as defined by applicable state and federal law) without prior written authorization from Customer.

### Additional Information and Required Notes:

Notes: **Power Sources** – New Hampshire law requires retail electricity providers to periodically provide information to their customers on the mix of power sources used by the provider to serve their New Hampshire customers' load.

**Emissions** – Carbon Dioxide (CO<sub>2</sub>) is released when certain fuels are burned. It is considered a greenhouse gas and a major contributor to global warming. Nitrogen Oxides (NO<sub>x</sub>) form when certain fuels are burned at high temperatures. They are considered contributors to acid rain and ground-level ozone (or smog). Sulfur Dioxide (SO<sub>2</sub>) is formed when fuels containing sulfur are burned. Major health effects associated with SO<sub>2</sub> include asthma, respiratory illness and aggravation of existing cardiovascular disease. The production of electricity can produce other harmful emissions and have other environmental impacts. Environmental impacts differ among individual power plants.

When you cancel services, you agree to pay for the services provided by Mega Energy through the date you are switched to another electric supplier or returned to the Utility for service. Your cancellation will not be effective until the next regularly scheduled meter-reading date which follows the date on which Mega Energy gives the Utility notice of your cancellation request. You are responsible for all charges incurred through the date on which cancellation and the resultant switch is effected by the Utility.

If you terminate after the Rescission Period but prior to the end of the Term, Mega Energy may charge you a cost recovery fee as indicated in your Contract Disclosure Summary. If you are not a residential customer, the cost recovery fee will be an amount calculated, in our reasonable discretion, as the product of (i) unconsumed electric energy for the balance of your Term based on historical usage and (ii) the price per kWh agreed to and set forth on the Contract Disclosure Summary.

## Residential and Small Commercial Terms of Service

The cost recovery fee is not a penalty but is intended to recover our cost in procuring a reliable, fixed price supply of electricity on your behalf. Should this remittance become delinquent, and Mega Energy retains an agency to collect the past due amount, you agree to pay a 30% collections surcharge in addition to the amount due.

Mega Energy reserves the right to cancel this agreement (i) if your Utility is unable to read your meter for three (3) consecutive months unless failure to read the meter is not the fault of the customer; (ii) if at any time you request separate bills from your Utility and Mega Energy. If this occurs, we will notify both you and your Utility of the cancellation of this agreement at least 3 days prior to the effective date of cancellation. It may take up to (60) days for Customer's account(s) to be returned to the Utility depending on Utility cancellation procedures.

**Dispute Resolution:** You should contact Mega Energy regarding any dispute related to this Agreement. Mega Energy will attempt to resolve the dispute in an efficient, fair and timely manner. Mega Energy will provide a response within (14) business days. Mega Energy will report the results of its investigation to you. If you are not satisfied with our attempt to resolve the problem or if you have questions about your rights and responsibilities, you may seek assistance from the New Hampshire Public Utilities Commission at 1-800-852-3793, 21 South Fruit Street, Suite 10, Concord, NH 03301-2429. Customer must pay the bill in full, except for the specific disputed amount, during the pendency of the dispute.

**Notes: Power Sources** – New Hampshire law requires retail electricity providers to periodically provide information to their customers on the mix of power sources used by the provider to serve their New Hampshire customers' load.

**Emissions** – Carbon Dioxide (CO<sub>2</sub>) is released when certain fuels are burned. It is considered a greenhouse gas and a major contributor to global warming. Nitrogen Oxides (NO<sub>x</sub>) form when certain fuels are burned at high temperatures. They are considered contributors to acid rain and ground-level ozone (or smog). Sulfur Dioxide (SO<sub>2</sub>) is formed when fuels containing sulfur are burned. Major health effects associated with SO<sub>2</sub> include asthma, respiratory illness and aggravation of existing cardiovascular disease.
