Hello

I've just received another letter indicating Pennichuck water will be asking for an increase in my QPAC surcharge in addition to even more rate hikes. I noticed that the P.U.C. allow Pennichck to recover 1.10 times or 110% of it's expenditures. In these time I think you ought to reduce this to 103% or 1.03times it's expenditures. A ten percent premium these day rival a loan shark's return. Need I remind you that banks are paying 0.5% in rare cases involving huge deposits with most persons getting 0.1% interest. Just my suggestion. I would appreciate it if you would consider it.

Thank You

Stephen Dyleski
