Re: Delivery Service Tariff NHPUC No. 9 Tariff Pages Effective April 1, 2021 – Line Extension Rates

Dear Ms. Howland:

In compliance with the secretarial letter issued by the Commission on March 25, 2021 in Docket No. DE 21-047 (Line Extension Tariff Update), the following tariff page is transmitted herewith:

NHPUC No. 10 - Electricity Delivery  
Public Service of New Hampshire dba Eversource Energy

1<sup>st</sup> Revised Page 26

Effective: April 1, 2021

In its secretarial letter, the Commission determined Eversource's updated cost per foot rates of \$29.51 for overhead single-phase construction and \$16.22 for underground single-phase construction are just and reasonable and are approved for effect on April 1, 2021.

A Black-lined tariff page denoting the changes associated with the updated cost per foot rates were filed with the Commission on March 11, 2021. Black-lined tariff pages denoting the updated issue date and incorporating the authorization footnote are included in this submittal for easy identification of the changes.

Please let us know if there are any questions concerning this filing. This filing is being filed electronically with the Commission.

Very truly yours,

*Jennifer Ullram*
