2021 Summer Cost of Gas

ORDER OF NOTICE

On March 15, 2021, Liberty Utilities (EnergyNorth Natural Gas) Corp. d/b/a Liberty Utilities-Keene Division (Liberty Keene or Company) submitted a 2021 Summer Cost of Gas (COG) filing outlining its proposed COG rates for the summer period (May 1, 2021 through October 31, 2021). Liberty Keene filed testimony, revised tariff pages, and schedules in support of the proposed rates. This filing and subsequent docket filings, other than any information for which confidential treatment is requested of or granted by the Commission, will be posted to the Commission's website at <https://www.puc.nh.gov/Regulatory/Docketbk/2021/20-041.html>.

Liberty Keene's proposed 2021 Summer COG rate is \$1.2165 per therm, a \$0.1912 increase from the current monthly Winter 2020-2021 COG rate of \$1.0253 per therm, and a \$0.5116 per therm increase when compared to last summer's weighted average rate of \$0.7049 per therm. This rate is based on the projected usage of both propane air and compressed natural gas (CNG) in Keene. The proposed change to the residential COG rate is expected to increase a typical residential heating customer's total summer bill from \$208 last summer to approximately \$253 this summer, an increase of \$45, or approximately 22 percent over the summer period using a weighted monthly average. The projected impact of the COG rate change, standing alone, is an increase from \$61 last summer to approximately \$106 this summer, an increase of \$45, or 73 percent.

The Liberty-Keene filing raises, *inter alia*, issues related to RSA 374:2 and RSA 378 including: the justness and reasonableness of rates, fares, and charges; the forecasting of sales, supplier prices, and transportation prices; weather normalization; operational issues; purchasing decisions related to current and past supplies; capacity and revenue projections related to transportation services and released capacity; the prudence and recovery of environmental remediation; the reconciliation of prior period costs and revenues; the revenue and rate impacts resulting from the proposed rate change; the calculation of per therm costs for both propane air and CNG, and incremental savings and costs.

Each party has the right to have an attorney represent the party at the party's own expense.

Based upon the foregoing, it is hereby
