Annual Report of Aquarion Water Company of New Hampshire

Year ended December 31, 2019

Class A or B Utility

ANY SUBSEQUENT CHANGES SHOULD BE REPORTED TO THIS COMMISSION INFORMATION SHEET 2019

S-1 REVENUE BY RATES

1. Report below, for each rate schedule in effect during the year, the thousand gallons sold, revenue, average number of customers, average thousand gallons of sales per customer, and average revenue per thousand gallons sold.
2. Provide a subheading and total for each prescribed operating revenue account in the sequence followed in schedule F-47 "Water Operating Revenues". If the sales under any rate schedule are classified in more than one revenue account, list the rate schedule and sales data under each applicable revenue account subheading.
3. Where the same customers are served under more than one rate schedule in the same revenue account classification, the entries in column (d) for the special schedule should denote the duplication in number of reported customers.
4. Number of customers should be reported on the basis of number of meters, plus number of flate rate amounts, except that where separate meter readings are added for billing purposes, one customer shall be counted for each group of meters added. The average number of customers means the average of the twelve figures at the close of each month.

Line No.	Number and Title of Rate Schedule (a)	Thousand Gallons Sold (b)	Revenue (c)	Average Number of Customers (d)	Thousand Gals. Sales per Customer (e)	Revenue per Thousand Gals. Sold (f)

Aquarion Water Company's Responses to Town of North Hampton Data Requests—Set 1

Data Request Received: September 1, 2021 Date of Response: September 15, 2021
Request No.: North Hampton-8 Witness: Daniel Lawrence

REQUEST: **Fire Protection Benefits**. Reference the attached plan showing hydrant locations in North Hampton. Does Aquarion agree that the Wiggin Way customers benefit from public fire protection rates paid by Hampton and North Hampton based on the attached map which shows that Aquarion fire hydrants are located immediately adjacent to the Wiggin Way system?

RESPONSE: Initially, it is unclear to Aquarion how Wiggin Way customers would benefit from "public fire protection rates paid by Hampton and North Hampton." To the extent the question is seeking to know whether Wiggin Way's customers would benefit from use of the hydrants themselves, the interconnection to the Wiggin Way Water System will not provide fire protection for the customers within Wiggin Way. The Company can not comment on the benefit to Wiggin Way related to fire protection.
