Re: DG 21-131, Northern Utilities, Inc.

Monthly Cost of Gas Report for May 2022

Dear Chair Goldner:

On May 10, 2022, Northern Utilities, Inc. – New Hampshire Division (“Northern”) submitted to the Commission a motion and accompanying information seeking an adjustment to the cost of gas (“COG”) rate effective as of June 1, 2022. By Order No. 26,626 (May 12, 2022), the Commission granted Northern’s motion and authorized a new COG rate effective June 1, 2022.

In compliance with its tariff, just prior to the end of each month, Northern typically submits to the Commission a report of any projected over or under-collection pertaining to its COG and, if necessary, any proposed adjustment to the COG rate. Given that the cost and revenue estimates were updated earlier this month and the most recently approved COG rates have not gone into effect yet, Northern is informing the Commission that it will not be filing any additional COG reports for the month of May. Northern will resume its monthly late month COG reports in June.

Please do not hesitate to contact me if you have any questions concerning this filing.

Sincerely,

A handwritten signature in blue ink, appearing to read "Matthew J. Fossum", enclosed in a thin blue rectangular border.
