## **SCHEDULES**

Revised Schedule GSL-1	Summary of Projects Placed in Service in 2021
Revised Schedule GSL-5	2022 Step Adjustment Revenue Requirement
Schedule GSL-6	Revenue Apportionment
Schedule GSL-7	Rate Design
Schedule GSL-8	Monthly Decoupling Revenue Per Customer Targets
Schedule GSL-9	Customer Bill Impacts
Schedule GSL-10	Residential Customer Bill Impacts

1 **I. INTRODUCTION**

2 **Q. Please state your name and business address.**

3 A. My name is Christopher J. Goulding, and my business address is 6 Liberty Lane  
4 West, Hampton, New Hampshire 03842.

5 My name is Kevin E. Sprague, and my business address is the same as Mr.  
6 Goulding's.

7 My name is Christopher J. LeBlanc, and my business address is 325 West Road,  
8 Portsmouth, New Hampshire.

9 **Q. Mr. Goulding, what is your position and what are your responsibilities?**

10 A. I am the Director of Rates and Revenue Requirements for Unitil Service Corp.  
11 ("Unitil Service"), a subsidiary of Unitil Corporation ("Unitil Corp" that provides  
12 managerial, financial, regulatory and engineering services to Unitil Corp's utility  
13 subsidiaries including Northern Utilities, Inc. ("Northern" or the "Company"). My  
14 responsibilities include all rate and regulatory filings related to the financial  
15 requirements of Northern and Unitil Corp's other subsidiaries.

16 **Q. Please describe your business and educational background.**

17 A. In 2000 I was hired by NSTAR Electric & Gas Company ("NSTAR", now  
18 Eversource Energy) and held various positions with increasing responsibilities in  
19 Accounting, Corporate Finance and Regulatory. I was hired by Unitil Service in  
20 early 2019 to perform my current job responsibilities. I earned a Bachelor of

1 Science degree in Business Administration from Northeastern University in 2000  
2 and a Master's in Business Administration from Boston College in 2009.

3 **Q. Have you previously testified before this Commission or other regulatory**  
4 **agencies?**

5 A. Yes, I have testified before the New Hampshire Public Utilities Commission (the  
6 "Commission") on various financial, ratemaking and utility regulation matters,  
7 including utility cost of service and revenue requirements analysis. I have also  
8 testified before the Maine Public Utilities Commission and Massachusetts  
9 Department of Public Utilities on similar matters on several occasions.

10 **Q. Mr. Sprague, what is your position and what are your responsibilities?**

11 A. I am Vice President of Engineering for Unitil Service. In this capacity, I manage  
12 all engineering functions, including electric engineering, gas engineering,  
13 computer-aided design and drafting, Geographic Information Systems ("GIS"),  
14 and management of utility-owned land and property.

15 **Q. Please describe your business and educational background.**

16 A. I have been employed by Unitil Service for over 25 years. I was originally hired  
17 as an Associate Engineer in the Electric Distribution Engineering group. I have  
18 held the positions of Engineer, Distribution Engineer, Manager of Distribution  
19 Engineering, Director of Engineering and now Vice President of Engineering. I  
20 accepted the Vice President of Engineering position in January of 2019. I hold a  
21 Bachelor of Science in Electric Power Engineering from Rensselaer Polytechnic  
22 Institute and a Master of Business Administration from the University of New

1 Hampshire.

2 **Q. Do you have any licenses that qualify you to speak to issues related to**  
3 **engineering?**

4 A. Yes. I am a registered Professional Engineer in the State of New Hampshire and  
5 the Commonwealth of Massachusetts.

6 **Q. Have you previously testified before the Commission, or other regulatory**  
7 **agencies?**

8 A. Yes, I have testified on previous occasions before the Commission, the Maine  
9 Public Utilities Commission and the Massachusetts Department of Public  
10 Utilities. I also filed testimony in the Company's base rate case proceeding in DG  
11 17-070.

12 **Q. Mr. LeBlanc, what is your position and what are your responsibilities?**

13 A. I am Vice-President of Gas Operations for Unitil Service. In this capacity, I am  
14 responsible for managing all gas operations for Northern and Unitil's other  
15 subsidiaries, including the safe, reliable, and efficient production, transportation  
16 and delivery of natural gas service to customers.

17 **Q. Mr. LeBlanc, please summarize your professional and educational**  
18 **background.**

19 A. I have more than 25 years of experience in the utility industry and an extensive  
20 background in the operation, maintenance and construction of natural gas  
21 distribution systems. I have been Operator Qualified in 84 covered tasks and have  
22 had formal industry-specific training at the Gas Technology Institute in Gas  
23 Distribution Operations, Transmission Operations, Pipeline Design and

1 Construction Practices and Regulator Station Design.

2

3 I joined Unutil Service in 2000 as a Field Technician and since then have  
4 progressed through several positions of increasing responsibility including Project  
5 Leader in 2002 and Manager, Gas Operations in 2003. I was promoted to  
6 Director, Gas Operations in 2008 and was named Vice-President, Gas Operations  
7 on January 1, 2017. Prior to joining Unutil Service, I was employed for nine years  
8 at R.H. White Construction Company, where I was responsible for leading and  
9 directing field crews in construction and installation of underground utility  
10 infrastructure.

11

12 I hold a Bachelor of Arts degree in Business Administration from Assumption  
13 College and a Master's degree in Business Administration from the same  
14 institution. Additionally, I have completed civil engineering course work at the  
15 University of Massachusetts, Lowell.

16 **Q. Have you previously testified before the Commission or other regulatory**  
17 **agencies?**

18 A. Yes, I have testified before the Commission on numerous issues related to gas  
19 safety and operations. In addition to the Commission, I have also testified before  
20 the Massachusetts Department of Public Utilities and the Maine Public Utilities  
21 Commission on issues related to gas safety and operations.

22

1 **II. SUMMARY OF TESTIMONY**

2 **Q. What is the purpose of your testimony?**

3 A. The purpose of our testimony is to revise the Company's revenue requirement for  
4 its 2022 Step Adjustment based on 2021 capital spending consistent with the  
5 methodology agreed to in the proposed Settlement Agreement in DG 21-104  
6 ("Settlement Agreement"). The next part of our testimony provides the Revenue  
7 Apportionment to the Company's rate classes, class Rate Design, and the  
8 resulting Monthly Decoupling Revenue Per Customer ("RPC") Targets for effect  
9 September 1, 2022. We also provide class Bill Impacts associated with the 2022  
10 Step Adjustment.

11 **Q. Please explain the increase for the 2022 Step Adjustment.**

12 A. The calculated 2022 Step Adjustment is \$1,554,966 for 2021 non growth capital  
13 spending and is included in this testimony pursuant to the Settlement Agreement.  
14 The 2022 Step Adjustment was derived by calculating the revenue requirement  
15 associated with the annual Change in Non-Growth Net Plant for the period  
16 January 1, 2021 through December 31, 2021. Additional details for the 2022 Step  
17 Adjustment are provided later in this testimony.

18

19

20

21

1 **III. 2022 STEP ADJUSTMENT**

2 **Q. What was the Company's forecasted capital spending for calendar year 2021**  
3 **for the 2022 Step Adjustment in docket DG 21-104?**

4 A. As shown on Table 1 (Bates 326) of the Company's pre-filed direct testimony of  
5 Kevin Sprague and Christopher LeBlanc in docket DG 21-104, the forecasted  
6 capital spending was \$30,048,049. This was based upon a five year capital budget  
7 forecast that was developed in 2020. The actual 2021 plant additions and cost of  
8 removal closed to plant was \$20,572,299.

9 **Q. Has the Company provided a summary of projects placed into service in**  
10 **2021?**

11 A. Yes. Revised Schedule GSL-1 provides a summary, by project, of capital  
12 additions placed into service during calendar year 2021. This schedule provides  
13 each applicable project's authorization number, budget code, associated FERC  
14 accounts, installation costs, cost of removal, salvage, original and any subsequent  
15 authorizations, budget, and date the project(s) were placed into service.  
16 Importantly the summary also designates each project as Growth ("G") or Non-  
17 Growth ("NG") and a split showing the amount of capital additions for each  
18 category is provided. During calendar year 2021 the Company had \$19,929,755 of  
19 additions with \$16,597,063, or 83% classified as Non-Growth.

20

21

1 **Q. Please explain the differences between the initially filed Schedule GSL-1 and**  
2 **Revised Schedule GSL-1.**

3 A. The Company's initially filed Schedule GSL-1 inadvertently included retirements  
4 in the "Install" column instead of plant additions only. The revised schedule  
5 shows \$19,929,755 of additions while the initially filed schedule showed  
6 \$19,749,334, or a difference of \$180,421. This amount is shown in Revised  
7 Schedule GSL-5, Column (a), Line 7. Lastly, Revised Schedule GSL-1 provides  
8 the total Cost of Removal and Plant in Service amounts classified between  
9 Growth and Non-Growth.

10 **Q. Has the Company provided Capital Budget Input Sheets and Capital**  
11 **Authorization requests?**

12 A. Yes. Schedule GSL-2 provides the Company's Capital Budget Input Sheets and  
13 Capital Authorizations for all investments placed into service during 2021.  
14 Capital Budget Input Sheets provide the scope, justification and raw budget inputs  
15 used by the capital budget system to calculate the budgeted amount. The Capital  
16 Authorizations provide further detail on the scope and justification for the project,  
17 the budgeted amount, and the authorized amount. If any subsequent Revised or  
18 Supplemental Authorizations were required the Company has provided those  
19 documents as well.

20

21

1 **Q. Has the Company provided Cost Records for projects placed in service in**  
2 **2021?**

3 A. Yes. Schedule GSL-3 provides the Company's Cost Records for specific projects  
4 placed in service in 2021. Schedule GSL-4 provides the Company's Cost Records  
5 for blanket projects placed in service in 2021.

6 **Q. How is Net Utility Plant derived?**

7 A. Page 1 of Revised Schedule GSL-5 shows Beginning Utility Plant, Plant  
8 Additions, Retirements, and Ending Utility Plant on Lines 1-4. Plant Additions  
9 and Retirements are detailed on Page 2 by FERC account. Then Page 1, Lines 5-9  
10 show Beginning Accumulated Depreciation, Depreciation, Retirements, Cost of  
11 Removal, Salvage, Transfers, and Ending Accumulated Depreciation. The  
12 difference between Ending Utility Plant and Ending Accumulated Depreciation  
13 results in Ending Net Utility Plant shown on Line 10.

14 **Q. What is the change in Net Utility Plant in Service for calendar year 2021?**

15 A. The Ending Net Utility Plant seen on Page 1, of Revised Schedule GSL-5, Line  
16 10, is \$222,031,220. The Beginning Net Utility Plant of \$211,872,045, the  
17 difference of Line 1 and Line 5, matches the Ending Net Utility Plant from the  
18 Settlement Agreement. Line 11 shows the Change in Net Utility Plant of  
19 \$10,159,175. The Company has further classified the Change in Net Utility Plant  
20 between Growth and Non-Growth, resulting in Changes in Net Utility Plant of  
21 \$1,632,263 and \$8,526,912, respectively.

22

1 **Q. How is the Revenue Requirement derived?**

2 A. The method used to calculate the Revenue Requirement is set forth in Section 2  
3 and Section 5 of the Company's proposed Settlement Agreement. The Company  
4 has shown the Revenue Requirement for Total, Growth, and Non-Growth  
5 investments, but as described in the Settlement Agreement the Company shall  
6 only recover the distribution revenue requirement associated with the annual  
7 Change in Non-Growth Net Plant. The annual Change in Non-Growth Net Utility  
8 Plant of \$8,526,912, as shown on Line 12 is multiplied by Line 13, pre-tax rate of  
9 return, to derive the Return and Taxes on Line 14. The Pre-Tax Rate of Return of  
10 8.99% is calculated on Page 4, Column 6, Line 4. Next, Depreciation Expense is  
11 calculated based on the annualized depreciation of Non-Growth Plant Additions  
12 for 2021. The depreciation rate of 3.46% reflects the composite depreciation rate  
13 in docket DG 21-104. Then, Property Taxes are on the Change in Non-Growth  
14 Net Utility Plant (Line 12). A property tax rate of 0.66% was utilized to recover  
15 State utility property taxes, using the currently effective statutory tax rate in RSA  
16 83-F:2, or \$6.60 per \$1,000 of investment. Next, per Section 5.5 of the Settlement  
17 Agreement, \$157,739 of post-test-year software amortization is included for  
18 recovery. Finally, Return and Taxes, Depreciation Expense, Property Taxes and  
19 the Amortization of Post-Test-Year Projects are added together to arrive at the  
20 Revenue Requirement in Line 18.

21

22

1 **Q. What is the Revenue Requirement that you derived?**

2 A. Page 1 of Revised Schedule GSL-5, Line 18, shows the Revenue Requirement  
3 associated with the annual Change in Non-Growth Net Plant of \$1,554,966.

4 **IV. RATE DESIGN & DECOUPLING TARGETS**

5 **Q. Please describe how the Revenue Requirement increase was allocated to rate**  
6 **classes.**

7 A. The Revenue Requirement increase was allocated to the rate classes consistent  
8 with Section 6.3 of the Settlement Agreement, which applies increases  
9 proportionately to all customer classes based on distribution revenue, using  
10 proposed August 1, 2022 distribution rates and test year billing determinants. A  
11 schedule showing the resulting allocation of the Revenue Requirement is provided  
12 in Schedule GSL-6.

13 **Q. Please explain the 2022 Step Adjustment Rate Design.**

14 A. Schedule GSL-7 shows the rate design from currently proposed rates for effect  
15 August 1, 2022 in Docket DG 21-104 to the rates proposed in this filing. As  
16 shown on pages 1 and 2, for the purpose of the rate calculations, the 2020 Test  
17 Year billing determinants are shown in Column (B). Columns (C) and (D) show  
18 the Company's proposed rates and revenues from the Company's Settlement  
19 Agreement permanent rate increase effective August 1, 2022. Next, Columns (E)  
20 through (H) provide calculations supporting the 2020 Test Year billing  
21 determinants for September through July (11-months) and the associated revenues

1 from the Company's Settlement Agreement rate increase effect August 1, 2022.

2 Next, Columns (I) and (J) provide the rates and associated revenues of the  
3 proposed 2022 Step Adjustment increase of \$1,554,966 over an 11-month period  
4 of September 1, 2022 through July 31, 2023 per Section 5.2 of the Settlement  
5 Agreement. The increase is applied proportionally through volumetric charges for  
6 all rate classes. Finally, Columns (K) and (L) provide the rates and associated  
7 revenues of the proposed 2022 Step Adjustment increase of \$1,554,966 over an  
8 12-month period of August 1, 2023 through July 31, 2024 and thereafter per  
9 Section 5.2 of the Settlement Agreement. The increase is applied proportionally  
10 through volumetric charges for all rate classes.

11 **Q. Has the Company provided proposed Monthly Revenue Per Customer**  
12 **Targets?**

13 A. Yes. Schedule GSL-8 provides the Company's proposed Monthly Target RPCs  
14 effective September 1, 2022 reflecting the Revenue Requirement associated with  
15 the annual Change in Non-Growth Net Plant of \$1,554,966 described above. The  
16 calculation reflects the methodology agreed upon and described in Section 5.2 of  
17 the Settlement Agreement, providing that the Company shall recover revenues  
18 associated with the full Rate Year (August 1, 2022 – July 31, 2023) over the  
19 eleven-month period beginning September 1, 2022 and ending July 31, 2023.  
20 Schedule GSL-8 also provides the Company's proposed Monthly Targets RPCs  
21 effective August 1, 2023, which adjusts distribution rates to reflect a 12-month  
22 recovery of the Step Adjustment.

1 **V. BILL IMPACTS**

2 **Q. What are the corresponding bill comparisons for Northern's customers**  
3 **served under its various rate schedules?**

4 A. A presentation of the billing impacts based on class average monthly usage by  
5 winter and summer seasons, and presented in deciles of usage, are provided for all  
6 rate schedules in Schedule GSL-9.

7 **Q. Has the Company prepared additional bill comparisons for its Residential**  
8 **customers?**

9 A. Yes. The annual bill impacts, as shown on a month-by-month basis, for the  
10 Residential rate schedules are provided in Schedule GSL-10.

11 **VI. TARIFF CHANGES**

12 **Q. Has the Company prepared revised tariffs?**

13 A. No. The Company intends to file tariffs in a compliance filing when an order is  
14 issued in DG 21-104 since these same tariff pages are pending approval for effect  
15 August 1, 2022. Once approved, those tariff pages will serve as the basis to  
16 prepare the tariff changes for effect September 1, 2022.

17 **VII. CONCLUSION**

18 **Q. Does this conclude your testimony?**

19 A. Yes, it does.
