4 Londonderry, New Hampshire.

5 **Q. Please state your position.**

6 A. I am the Manager of Electric Supply for Liberty Utilities Service Corp. (“LUSC”), which
7 provides services to Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty
8 (“Granite State,” “Liberty,” or “the Company”). I oversee the procurement of power for
9 Energy Service for Granite State as well as the procurement of Renewable Energy
10 Certificates (“RECs”).

11 **Q. Please describe your educational background and training.**

12 A. I graduated from the State University of New York Maritime College in 1977 with a
13 Bachelor of Science in Nuclear Science. I received a Master’s in Business
14 Administration from Northeastern University in 1986. In 1992, I earned a Master of Arts
15 in Energy and Environmental Management from Boston University.

16 **Q. What is your professional background?**

17 A. In November 2011, I joined LUSC as Manager, Electric Supply for Granite State. Prior
18 to my employment at LUSC, I was employed by National Grid USA Service Company
19 (“National Grid”) as a Principal Analyst in Energy Supply – New England from 2000 to
20 2010. In that position, I conducted a number of solicitations for wholesale power to meet
21 the needs of National Grid’s New England distribution companies. I also administered

1 both short-term and long-term power purchase agreements for National Grid’s New
2 England distribution companies. Prior to my employment at National Grid, I was
3 employed at COM/Energy (now Eversource) from 1992 to 2000. From 1992 to 1997, I
4 was a Rate Analyst in Regulatory Affairs at COM/Energy responsible for supporting state
5 and federal rate filings. In 1997, I transferred to COM/Electric to work in Power Supply
6 Administration.

7 **Q. Have you previously testified before the New Hampshire Public Utilities**

10 State’s Annual Retail Rate Adjustment Filing, on April 19, 2022.

11 **Q. Have you testified before any other state regulatory agencies?**

12 A. Yes. I have testified before both the Massachusetts Department of Public Utilities and
13 the Rhode Island Public Utilities Commission regarding electric supply and renewable
14 portfolio procurement activities.

15 **II. PURPOSE OF TESTIMONY**

16 **Q. Mr. Warshaw, what is the purpose of your testimony?**

17 A. The purpose of my testimony is to support the Company’s request for Commission
18 approval of Liberty’s proposed Energy Service rates for both (i) the Large and Medium
19 Commercial and Industrial Customer Group (“Large Customer Group”¹), and (ii) the

¹ The Large Customer Group is comprised of customers taking service under General Long-Hour Service Rate G-2 or General Service Time-Of-Use Rate G-1 of the Company’s Retail Delivery Tariff.

1 Residential and Small Commercial Customer Group (“Small Customer Group”²) for the
2 six-month period August 1, 2022, through January 31, 2023. My testimony will describe
3 the process used by Liberty to procure Energy Service for both the Large and Small
4 Customer Groups, the proposed Energy Service rates, and how the Company proposes to
5 meet its 2022 Renewable Portfolio Standard (“RPS”) obligations.

6 **Q. Please provide the list of schedules attached to your testimony.**

- 7 A. Schedule JDW-1 Energy Service RFP August 1, 2022, through January 31, 2023
8 Schedule JDW-2 Energy Service Procurement Summary
9 Schedule JDW-3 Comparison of Change in Futures Prices to Change in Procurement
10 Costs
11 Schedule JDW-4 Energy Service Contract for the Large Customer Group and the
12 Small Customer Group August 1, 2022, through January 31, 2023,
13 with NextEra Energy Marketing, LLC
14 Schedule JDW-5 Summary of November 1, 2022, RPS Solicitation
15 Schedule JDW-6 Summary of 2021 & 2022 RPS Positions

17 **III. ENERGY SERVICE BIDDING PROCESS**

18 **Q. Mr. Warshaw, why does Liberty need to procure Energy Service for both the Large
19 and Small Customer Groups for the period beginning August 1, 2022?**

- 20 A. Pursuant to the procurement process approved by the Commission, which I describe later
21 in my testimony, Liberty procures power supply through contracts having a three-month
22 term for the Large Customer Group and a six-month term for the Small Customer Group.
23 Liberty’s currently effective Energy Service supply contracts for both the Large and
24 Small Customer Groups expire on July 31, 2022. Therefore, to assure that Energy

² The Small Customer Group is comprised of customers taking service under Domestic Service Rate D; Domestic Service - Optional Peak Load Pricing Rate D-10; Outdoor Lighting Service Rate M; Limited Total Electrical Living Rate T; General Service Rate G-3; or Limited Commercial Space Heating Rate V of the Company’s Retail Delivery Tariff.

1 Service will continue to be available, Liberty requires new Energy Service supply
2 arrangements beginning August 1, 2022.

3 **Q. Please describe the process Liberty used to procure its Energy Service supply for**
4 **the six-month period beginning August 1, 2022.**

5 A. Liberty conducted its procurement of Energy Service supply consistent with the
6 principles of the electric restructuring statute, RSA 374-F, and previous Commission
7 orders. The Company complied with the solicitation, bid evaluation, and procurement
8 process set forth in the Settlement Agreement dated November 18, 2005, which
9 agreement was approved by the Commission in Order No. 24,577 (Jan. 13, 2006) in
10 Docket No. DE 05-126, amended by Order No. 24,922 (Dec. 19, 2008) in Docket No. DE
11 08-011, amended by Order No. 25,601 (Nov. 27, 2013) in Docket No. DE 13-018, and
12 further amended by Order No. 25,806 (Sept. 2, 2015) in Docket No. DE 15-010 (as
13 amended through these subsequent orders, the "Settlement Agreement"). On May 2,
14 2022, Liberty issued a request for proposals ("RFP") for certain power supply services
15 and sought suppliers for Liberty's Energy Service covering both the Large and Small
16 Customer Groups.

17 **Q. Was the Company's solicitation for the period beginning August 1, 2022, consistent**
18 **with the Commission-approved process for Energy Service?**

19 A. Yes, Liberty's Energy Service RFP was conducted consistent with the Settlement
20 Agreement.

1 **Q. Could you describe the nature of the RFP that Liberty issued?**

2 A. On May 2, 2022, and consistent with past practice, Liberty issued an RFP to a number of
3 potential suppliers soliciting power for the period August 1, 2022, through January 31,
4 2023. Liberty also distributed the RFP to all members of the New England Power Pool
5 (“NEPOOL”) Markets Committee and posted the RFP on Liberty’s energy supply
6 website. As a result, the RFP had wide distribution throughout the New England energy
7 supply marketplace. The RFP requested fixed pricing for each month of service on an as-
8 delivered energy basis. Prices could vary by month and by service; that is, the prices did
9 not have to be uniform across the entire service period or between the three load blocks.
10 A copy of the RFP is provided as Schedule JDW-1.

11 **Q. What is the cost to administer procurement of energy service?**

12 A. For the period of August 2021 through July 2022, the cost of administering procurement
13 of energy service was approximately \$26,214. These costs are broken down by month in
14 Attachment HMT/AMH-6, Page 4.

15 **IV. RESULTS OF ENERGY SERVICE BIDDING**

16 **Q. Mr. Warshaw, did Liberty receive responses to the RFP?**

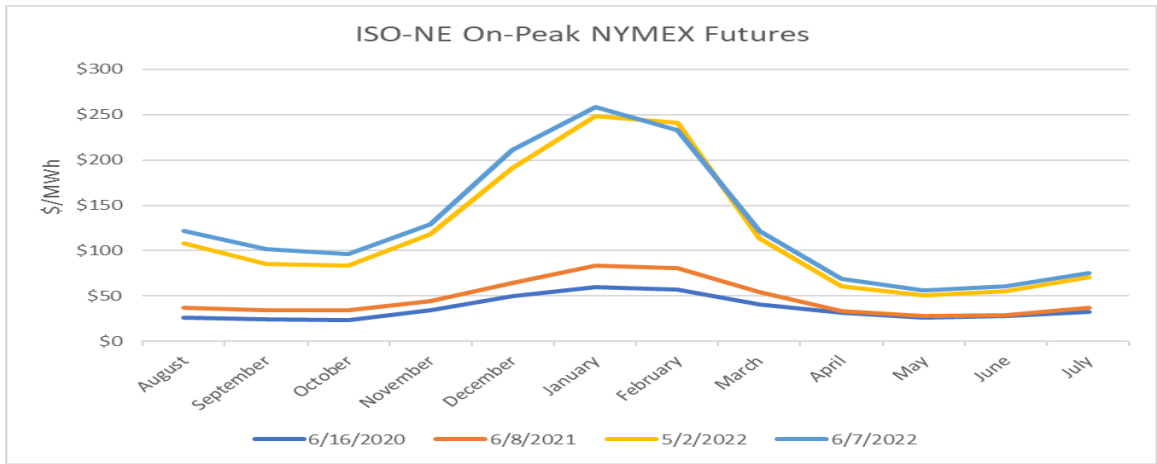

17 A. Yes. Indicative proposals were received on May 31, 2022. Final proposals were
18 received on June 7, 2022. None of the bidders made their provision of Liberty’s Energy
19 Service contingent upon the provision of any other service.

1 **Q. Was participation in this RFP like past solicitations?**

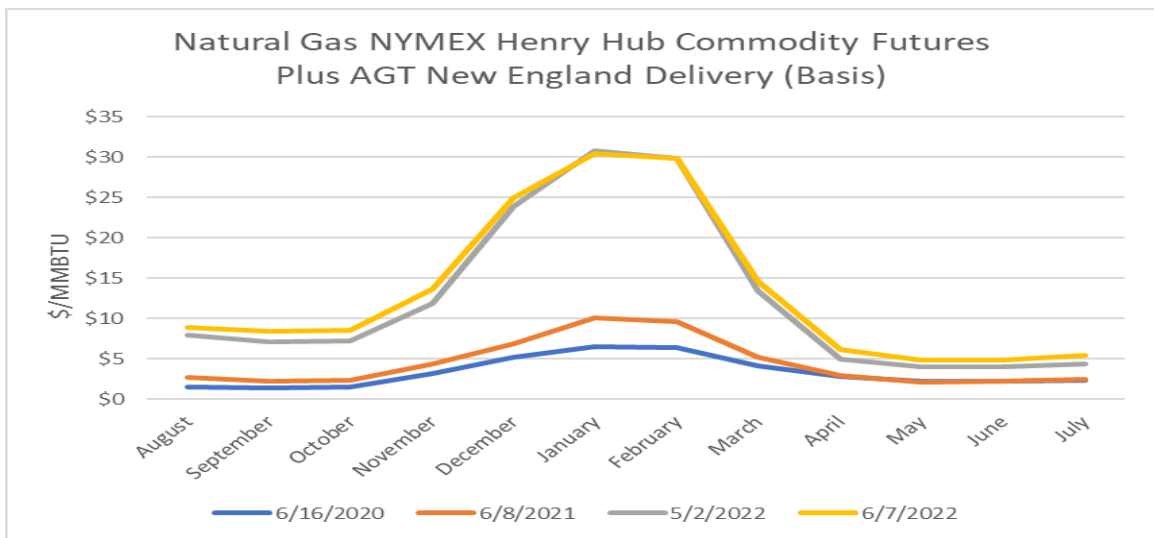

2 A. No. Several bidders elected to not participate in this RFP due to the current volatility in
3 the energy markets.

4 **Q. How do the current futures prices for electricity and natural gas compare to the**
5 **futures prices at the time of the Company's previous solicitations?**

6 A. The futures market prices for electricity and natural gas currently are at record highs and
7 are experiencing significant volatility. Please see the two graphs below:

8

9

1 As shown in these two graphs, the future prices over the last three years at the time of
2 receiving bids for the 12-month period beginning August 1 are significantly higher than
3 in previous RFPs.

4 The futures market prices for electricity and natural gas at the time of receiving final bids
5 for the previous two solicitation periods on June 8, 2021, and December 14, 2021, as well
6 as current futures market prices, are shown in Schedule JDW-3. These are the most
7 recent solicitations for the Small Customer Group. As shown, current electric wholesale
8 and natural gas future prices are significantly higher when compared to when final bids
9 were received on June 8, 2021, and December 14, 2021. Current futures prices have
10 doubled when compared to December 14, 2021, futures prices and are over 200 percent
11 higher when compared to the June 8, 2021 futures prices. As a result, the proposed retail
12 prices for the Small Customer Group are also up similarly.

13 **Q. Did Liberty select any of the proposals received in response to the RFP?**

14 A. Yes. Liberty evaluated the bids received and selected the supplier that: (i) provided a bid
15 that was conforming to the RFP; (ii) had the lowest price; (iii) met the credit
16 requirements described in the RFP; and (iv) passed our qualitative evaluation. On June 7,
17 2022, Liberty entered into a wholesale Transaction Confirmation with NextEra Energy
18 Marketing, LLC (NextEra), the winning bidder, to provide Energy Service to both the
19 Large Customer Group and the Small Customer Group for the six-month period August
20 1, 2022, through January 31, 2023. Together, a Transaction Confirmation and a Master
21 Power Agreement provide the terms for the purchase of Energy Service from a supplier.
22 A copy of the Transaction Confirmation between NextEra and Liberty, with certain

1 confidential sections redacted, is attached hereto as Schedule JDW-4. A copy of the
2 NextEra Master Power Agreement was filed with the Commission on September 17,
3 2007, in Docket No. DE 07-012 (Energy Service proceeding), and the First Amendment
4 to that Master Power Agreement was filed with the Commission on September 20, 2010,
5 in Docket No. DE 10-020 (Energy Service proceeding).

6 **Q. Does the Company have a value of the contract with NextEra?**

7 A. The notional value of the transaction with NextEra is \$52.3 million, based on the
8 contracted fixed prices and Liberty's forecast of retail sales for this Energy Service
9 period for the combined large and small customer groups.

10 **V. RENEWABLE PORTFOLIO STANDARD**

11 **Q. Mr. Warshaw, what are the RPS obligations for 2022 and 2023?**

12 A. As specified in the RPS statute, RSA 362-F, a provider of electricity must obtain and
13 retire certificates sufficient in number and class type to meet the following minimum
14 percentages of total megawatt-hours of electricity supplied by the provider to its
15 customers that year:

NH-RPS Classes	2022	2023
RPS Class I	10.3%	11.0%
RPS Class I Thermal	2.0%	2.2%
RPS Class II	0.7%	0.7%
RPS Class III	8.0%	8.0%
RPS Class IV	1.5%	1.5%
Total	22.5%	23.4%

1 **Q. How does Liberty expect to satisfy its RPS obligations consistent with the RPS rules**
2 **as promulgated by the Commission?**

3 A. On February 18, 2009, Liberty entered into an amended settlement agreement with the
4 Commission Staff and the Office of Consumer Advocate intended to resolve all issues
5 associated with the process by which Liberty would comply with the requirements of the
6 RPS statute and the PUC 2500 rules (“Amended RPS Settlement”). The Amended RPS
7 Settlement was approved by the Commission in Order No. 24,953 (March 23, 2009) in
8 Docket No. DE 09-010. The Company may satisfy RPS obligations by providing either
9 RECs for each RPS class from the New England Power Pool Generation Information
10 System (“NEPOOL-GIS”) or by making an Alternative Compliance Payment (“ACP”) to
11 the State of New Hampshire’s Renewable Energy Fund. As specified in the Amended
12 RPS Settlement, Liberty requested bidders to provide a separate RPS Compliance Adder
13 with their bids. This RPS Compliance Adder is the incremental charge by a bidder for
14 agreeing to take on the RPS obligation with the Energy Service obligation.

15 **Q. If a winning bidder’s RPS Compliance Adder is accepted, how would the bidder**
16 **satisfy the RPS obligation?**

17 A. The supplier assumes the RPS obligation for its transaction when the RPS compliance
18 adder is accepted. This means that the supplier must deliver RECs to satisfy each RPS
19 class obligation to the Company’s NEPOOL-GIS account, or it must pay the Company
20 the ACP for the undelivered RECs. The quantity of RECs required is calculated by
21 multiplying the RPS obligation percentage for each REC class by the electricity sales for
22 the term of the transaction.

1 **Q. What were the criteria Liberty used to evaluate any RPS Compliance Adder which**
2 **may have been provided by a bidder?**

3 A. In Schedule JDW-2, Exhibit 11, Liberty calculated a Renewable Portfolio Standard
4 Adder rate of \$0.00781/kWh based on market prices as of May 2, 2022. Liberty used
5 that RPS Adder to benchmark against RPS bids received from suppliers.

6 **Q. Did Liberty accept an RPS Compliance Adder provided by a bidder?**

7 A. No. The winning Energy Service bidder did not propose an RPS Compliance Adder.

8 **Q. Is Liberty proposing any changes to the Renewable Portfolio Standard Adder at this**
9 **time?**

10 A. Yes. Liberty is proposing to change the Commission-approved Renewable Portfolio
11 Standard Adder to reflect the increase in the RPS obligations and the results of its recent
12 RPS solicitations to meet the 2022 RPS obligations and current market pricing.

13 Liberty issued a request for proposals on May 2, 2022, for the acquisition of New
14 Hampshire RPS compliant RECs to meet its remaining 2021 and forecasted 2022
15 obligations. The results of Liberty's May 2, 2022, solicitation are included in Schedule
16 JDW-2, Exhibit 10. At this time, Liberty has completed its analysis of the bids but has
17 not started contract negotiations with the bidders. Liberty will notify the winning bidders
18 by June 30, 2022, and will provide an update in the next Energy Service filing scheduled
19 for December 2022.

1 As shown in Schedule JDW-2, Exhibit 11, Liberty used the prices it received in response
2 to its May 2, 2022, solicitation, previous RPS solicitations, and current market prices to
3 calculate the RPS Adder at \$0.00781 per kWh.

4 **Q. What happens if Liberty's actual RPS compliance costs are different from those**
5 **used in calculating the Renewable Portfolio Standard Adder?**

6 A. Liberty reconciles its costs of RPS compliance with the revenue billed to customers from
7 the Renewable Portfolio Standard Adder. This reconciliation occurs as part of the annual
8 Energy Service reconciliation.

9 **Q. Has Liberty been able to contract for RECs?**

10 A. Yes. In December 2021, Liberty was able to contract for Class I, Class I Thermal, and
11 Class IV RECs to help meet a portion of its 2021 and 2022 RPS obligations. A summary
12 of the results of Liberty's November 2021 RPS solicitation is included in Schedule JDW-
13 5. Schedule JDW-6 is a summary of Liberty's RPS positions. As shown in Schedule
14 JDW-6, Liberty expects to spend a total of \$2,485,454 to meet its 2021 RPS Obligations.
15 Schedule JDW-7 is a list of the contracts Liberty has executed with RPS REC suppliers
16 for vintage 2021 and 2022 NH RPS compliant RECs.

17 **Q. Why is Liberty forecasting that it will have a surplus of Vintage 2020 Class III**
18 **RECs?**

19 A. At this time Liberty is forecasting that it will have 14,208 vintage 2020 Class III RECs, at
20 a value of \$490,755 based on the 2020 ACP for Class III, that it will be unable to use to
21 meet either the 2021 and 2022 RPS Class III REC obligations due to the Commission's

1 reduction of the 2021 Class III REC requirement in Order No. 26,472 (Apr. 20, 2021),
2 due to the Department of Energy's reduction of the 2022 Class III REC requirement, and
3 due to the 30% limit in using "banked" RECs in a single compliance year as specified in
4 RSA 362-F:7.

5 Specifically, and as more fully described in Liberty's January 31, 2022, filing in Docket
6 No. DE 21-087, Liberty purchased Class III RECs in July 2020 to meet its 2020 Class III
7 obligations. In April 2021, the Commission reduced the 2020 Class III obligation from
8 8% to 2% of 2020 Energy Service retail sales. Subsequently, the NH DOE recently
9 reduced the 2021 Class III obligation from 8% to 1% of 2021 Energy Service retail sales.
10 This resulted in a quantity of vintage 2020 Class III RECs that Liberty will not be able to
11 use to meet its RPS Class III obligations. Liberty will propose to recover the cost of
12 these surplus RECs in the 2023 Energy Service Reconciliation.

13 **Q. What will Liberty do with the Class III RECs purchased over and above the**
14 **requirements?**

15 A. At this time, the Company is banking the unused Class III RECs and will request
16 recovery of those costs over and above the required Class III RECs in the 2023 Energy
17 Service Reconciliation.

18 **Q. When will Liberty issue the next REC request for proposals?**

19 A. Liberty plans to issue an RPS solicitation in November 2022 to procure RECs to satisfy
20 its 2022 RPS obligations and a portion of the 2023 RPS obligations.

1 **VI. ENERGY SERVICE COMMODITY COSTS**

2 **Q. Mr. Warshaw, please summarize the power supply cost at the retail meter based on**
3 **Liberty's expected procurement cost used to develop the proposed retail rates.**

4 A. The load-weighted average of the power supply costs for the Large Customer Group for
5 August 1, 2022, through January 31, 2023, is 23.878¢ per kWh as compared to the load-
6 weighted average of 10.626¢ per kWh for the period February 1, 2022, through July 31,
7 2022. The load-weighted average of the power supply costs for the Small Customer
8 Group for August 1, 2022, through January 31, 2023, is 22.227¢ per kWh as compared to
9 the load-weighted average of 11.119¢ per kWh for the period February 1, 2022, through
10 July 31, 2022. The power supply costs at the retail customer meter (¢ per kWh) were
11 calculated by multiplying the commodity prices at the wholesale level (\$ per MWh) by
12 the applicable loss factor and then dividing the results by ten. The applicable loss factors
13 can be found in the RFP summary in Schedule JDW-2. The loss factor is a calculated
14 ratio of wholesale purchases to retail deliveries.

15 **Q. How will Liberty reconcile any difference in costs associated with Energy Service?**

16 A. To the extent that the actual cost of procuring Energy Service varies from the amounts
17 billed to customers for the service, Liberty will reconcile the difference through the
18 reconciliation mechanism pursuant to Liberty's Energy Service Adjustment Factor
19 contained in its currently effective Retail Delivery Tariff. Please see Attachment
20 HMT/AMH-5 for the proposed Energy Service Adjustment Factor rate.

1 **VII. CONCLUSION**

2 **Q. Mr. Warshaw, when will Liberty issue the next RFP for Energy Service?**

3 A. The Large Customer Group rates and the Small Customer Group rates proposed in this
4 filing will both end on January 31, 2023. Per the terms of the Settlement Agreement,
5 Liberty will next issue an RFP for both groups in November 2022. For purposes of
6 notice to the Commission, the following table illustrates Liberty's proposed timeline for
7 the next RFP:

RFP Process Steps	Proposed November 2022 RFP
RFP Issued	November 1, 2022
Indicative Bids Due	December 6, 2022
Final Bids Due	December 13, 2022
Energy Service Filing to Commission	December 16, 2022
Commission Order Needed	December 23, 2022
Service Begins	February 1, 2023

9 **Q. Does this conclude your testimony?**

10 A. Yes, it does.

Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities

Request for Power Supply Proposals to Provide Default Service

For the Period:

August 1, 2022 through January 31, 2023

May 1, 2022

REQUEST FOR POWER SUPPLY PROPOSALS

1. Overview

1.1 Background

Legislation and restructuring settlement agreements in New Hampshire¹ provide for competition in the electric utility industry by extending competition in the wholesale power supply markets to retail customers through the provision of retail access to all customers.

In New Hampshire, the Restructuring Settlement provides access to the competitive retail electricity market for all retail electric customers of Liberty Utilities (Granite State Electric) Corp. d/b/a Liberty Utilities (“Liberty”) as of July 1, 1998 pursuant to the provisions of the New Hampshire Act. The Restructuring Settlement and the New Hampshire Act require Liberty to provide generation service (“Energy Service”) to those customers that are not receiving generation service from a competitive supplier².

1.2 Default Service³

The Default Service Settlement Agreement in New Hampshire and the New Hampshire Act require Liberty to provide Energy Service to those customers that are not receiving generation service from a competitive energy supplier. In compliance with the Default Service Settlement Agreement, Liberty will procure Default Service by customer group (Small Customer Group and Large Customer Group). For the Small Customer Group, Liberty will procure 100% of their Default Service supply for a six-month period. For the Large Customer Group, Liberty will procure 100% of their Default Service supply for two consecutive three-month periods.

Liberty is hereby seeking proposals from qualified power suppliers to supply firm, load-following power to meet its Default Service requirements.

Liberty intends to use existing Master Power Agreements (and any Amendments) that are currently in place with suppliers.

¹ Granite State Electric Company’s Second Amended Restructuring Settlement Agreement (“Restructuring Settlement”) and RSA 374-F (“New Hampshire Act”).

² The New Hampshire Act specifies that Transition Service ends at midnight on April 30, 2006. All Transition Service customers who did not choose a competitive supplier by April 30, 2006 began receiving Energy Service on May 1, 2006. A settlement agreement approved by the New Hampshire Public Utilities Commission (“NHPUC”) on January 13, 2006 in Order No. 24,577 provides for the procurement of Default Service commencing May 1, 2006 (“Default Service Settlement Agreement”).

³For clarity, when referring to Default Service, Liberty is describing the wholesale service to be procured in this solicitation. When referring to Energy Service, Liberty is describing the retail service it provides to its customers.

Liberty, at its sole discretion, reserves the right to issue additional instructions or requests for additional information, to extend the due date, to modify any provision in this Request for Power Supply Proposals (“RFP”) or any appendix thereto and to withdraw this RFP.

1.3 Customer Group

For the purposes of this solicitation, the customer groups are defined as:

Customer Group	Rate Class
Small Customer Group	D, D-10, G-3, M, T and V
Large Customer Group	G-1 and G-2

2. Description of Services

2.1 Description

Appendix A contains an overview of the services covered by this RFP. The Appendix provides:

- A brief description of Energy Service; and
- The eligibility requirements for a customer to obtain or leave Energy Service.

2.2 Expected Loads

Liberty is unable to predict the potential load requirements of any customer group. Liberty’s customers are free to leave Energy Service at any time to take service from competitive suppliers. The ability of customers to enroll or return to Energy Service is described in Appendix A.

To assist Respondents in determining the potential load requirements, Liberty is able to provide the following information on the Liberty’s Power Procurement website:

For Default Service:

- Aggregated historical hourly load information for Default Service (since May 1, 2006);
- Class average load shapes at the retail meter point;
- Historical customer counts: the number of active accounts in each rate class as of the last billing day in each month;
- Historical customer counts for customers taking service from a competitive supplier, as of the last billing day in each month, by rate class; and
- ICAP tags as of the last day of the month for each load asset.

Please use the following link to access the site:

This link replaces the previous link used in Liberty’s RFPs. Click on “Data” at the upper right of the screen to access Load Data, Customer Count Data, Class Average Load Shapes and ICAP Tags. This site is open to anyone with the above link. No user id or password is required to access the data on the site.

2.3 Load Blocks

Liberty’s total Default Service requirements covered by this RFP are broken down into the following three load blocks:

Load Block	Customer Group	SMD Load Zone	Load Share	Type of Service	Period
A	Large	NH	100%	Default Service	08/01/2022 – 10/31/2022
B	Large	NH	100%	Default Service	11/01/2022 – 01/31/2023
C	Small	NH	100%	Default Service	08/01/2022 – 01/31/2023

Respondents may not limit the amount of service that may be purchased for a given load block. Proposals that contain limits on the amount of service provided will be rejected⁴.

The amount of load to be supplied by the winning Supplier will be determined in accordance with the procedure contained in Article 6 of the Master Power Agreement, a copy of which is provided in Appendix B.

2.4 Retail Customer Rates

During the term of service covered by this RFP, Liberty intends, in accordance with the Default Service Settlement Agreement, to establish retail rates for generation service for Energy Service customers (“Energy Service Rates”). The Energy Service Rates will reflect Liberty’s purchase costs for such service due to commitments made as a result of this RFP. The Default Service Settlement Agreement also requires Liberty to include in its Energy Service Rates a surcharge to account for the administrative costs associated with Energy Service. The Energy Service Rates must be approved by the NHPUC.

2.5 Effectiveness of Contracts

Any agreement(s) entered into for the delivery of Default Service pursuant to this solicitation will be subject to the approval by the NHPUC of the retail rates prior to the

⁴ For example, a Respondent offering to supply Block A load must agree to supply 100% of the needs of that load block during every month of the Period (for example, 100% of the total load of the Industrial customer group in the Large NH Load Zone). The Respondent may not offer to serve Block A subject to a maximum or minimum level of demand in any hour.

agreement(s) becoming effective. Section 1 of the New Hampshire Master Power Agreement Form of Confirmation addresses the possibility that the NHPUC may not approve the retail rates.

3. General Provisions

3.1 Terms and Conditions

The winning Supplier will be selected to provide Default Service to the customer groups/load block during the term covered by this RFP. Default Service will be provided by such Supplier to Liberty in accordance with the terms and conditions of the Master Power Agreement. A copy of the Master Power Agreement for New Hampshire is provided in Appendix B.

All Respondents must have an updated executed Master Power Agreement prior to the indicative bid date.

The winning Supplier will be required to execute a confirmation within two (2) business days of being notified that it has been selected as the winning Supplier.

Under Article 7 of the Master Power Agreement, failure of the winning Supplier to deliver Requirements would constitute an event of default under the Master Power Agreement, allowing Liberty to terminate and recover liquidated damages from the Supplier.

Liberty is conducting the procurement process in three steps. The first step is for Respondents to provide Liberty with their background and financial information by 5:00 p.m. ET on Monday, May 23, 2022. Upon receipt, Liberty will evaluate each Respondent's qualifications and will notify any Respondent that does not qualify by at least one business day before indicative pricing is due.

Liberty will not evaluate any indicative or final pricing if the Respondent does not have an executed Master Power Agreement. The Master Power Agreement must be executed prior to submitting indicative pricing.

The second step in this process is for Respondents to provide indicative pricing information by 10:00 a.m. ET on Tuesday, May 31, 2022 at the above address. Liberty will evaluate the indicative pricing as described above, and if required, Liberty may seek clarifications from Respondents.

The third step is for Respondents to provide final pricing information by 10:00 a.m. ET on Tuesday, June 7, 2022 at the above address. Liberty requests final pricing be valid until **2:00 p.m.** that same day. Liberty intends to evaluate the final pricing and select a Supplier that day by that time. Final pricing shall be binding until execution of a confirmation. Respondents should specify the manner in which they will accept a binding acceptance of their offer by Liberty prior to receipt of an executed agreement (letter of intent or e-mail) or they will be deemed to be bound by Liberty's acceptance communicated in any of the preceding manners.

Within three business days of receipt of all executed agreements, Liberty will file with the NHPUC a confidential summary of the solicitation process, the executed agreement(s) and proposed Energy Service Rates.

Consistent with the Default Service Settlement Agreement, the NHPUC will have five business days to either approve the proposed Energy Service Rates or reject them. If the NHPUC denies Liberty's request for approval of the retail rates, the agreement(s) will be void and the parties will have no further obligation under the agreements(s).

At any time, Liberty, at its sole discretion, reserves the right to issue additional instructions or requests for additional information, to extend the due date, to modify any provision in this RFP or any appendix thereto and to withdraw this RFP.

3.3 Contact Person/Questions

All questions regarding this Request for Proposal should be directed to Mr. Warshaw at the address provided in Section 3.2 above.

3.4 Right to Select Supplier

Liberty shall have the exclusive right to select or reject any and/or all of the proposals submitted at any time, for any reason.

4. Service Features

4.1 Commencement Date of Supply

Service from the winning Supplier to Liberty shall begin as of HE 0100 ET on the date specified in the table found in Section 2.3 – Load Blocks.

Service from Liberty to individual customers, who are taking Energy Service in each customer group as of the Commencement Date, if any, will continue with the winning Supplier providing such service to Liberty as of the Commencement Date.

Service from Liberty to individual customers taking Energy Service as of the Commencement Date shall begin on the customer's meter reading date following notification/determination that a customer will be commencing Energy Service.

Liberty's procedures provide for customers to be switched from one service option to another (e.g., from Energy Service to a competitive supplier, from one competitive supplier to another competitive supplier, from a competitive supplier to Energy Service) on their normal cycle meter reading dates. However, there may be circumstances (e.g., default of a competitive supplier) that might require a customer to be switched to Energy Service "off-cycle". In such case, the customer will be switched to Energy Service on a date designated by Liberty.

4.2 Termination Date of Supply

Service from the winning Supplier to Liberty shall terminate at HE 2400 ET on the dates specified in the table found in Section 2.3 – Load Blocks.

Individual customers taking Energy Service from Liberty may terminate the service at any time. Terminations may include, but not be limited to: (i) a customer's taking competitive service from a competitive supplier; (ii) disconnection of service by Liberty in accordance with regulations and procedures approved by the NHPUC; or (iii) closing

of a customer’s account. Liberty’s procedures provide for customers electing to terminate such service to be switched to their successor service on their normal cycle meter reading date following the date that Liberty receives notification of such switch. However, there may be circumstances which might require a customer to be terminated “off-cycle”. In such a case, the customer will be terminated from Energy Service on a date to be determined by Liberty.

4.3 Delivery Points

The Supplier of Default Service will be responsible for delivering power to the nodes/zones representing the actual locations of the Default Service loads. The Supplier of each of the services will be responsible for any PTF losses allocated by the ISO related to the services. The locations of the Default Service load assets are as follows:

SMD Load Zone	Load Asset	Load Asset Name	Load Block
NH	11437	GRANITE LARGE CG DS SVC LOAD	A
NH	11437	GRANITE LARGE CG DS SVC LOAD	B
NH	11436	GRANITE SMALL CG DS SVC LOAD	C

4.4 Form of Service

The Supplier of the Load Block shall be responsible for meeting the specified service requirements for all of Liberty’s customers in a specific Load Block. These service requirements include the generation and/or market procurement and delivery to the delivery point(s) of the portion of the electric capacity, energy and ancillary services required to meet the needs of Liberty’s ultimate customers taking such service. Liberty will implement the transfer of these responsibilities to the Supplier by updating the asset registration for each of the above Load Assets. Liberty will assign to the Supplier the applicable Ownership Share for each Load Asset. Once a Supplier’s obligation terminates, Liberty will terminate the Supplier’s Ownership Share of a Load Asset.

The Supplier shall be responsible for all obligations, requirements, and costs associated with the Supplier having the Load Asset Ownership Share which shall include but not be limited to the day-ahead load obligations and real-time load obligations at the nodes/zones of each Load Asset. A more complete description of a Supplier’s responsibilities can be found in the Master Power Agreement in Appendix B of this RFP.

The Supplier shall be responsible for all decisions and data submissions associated with any bids into the market system to manage these obligations. The Supplier shall be responsible for all components of any Locational Marginal Prices the Supplier must pay in delivery of the services. These components include, but are not limited to, the day-ahead and real-time energy, marginal losses, and congestion charges. As the supplier of such services, the Supplier will be responsible for all present or future requirements and associated costs (to the extent such charges are not imposed on Liberty as a transmission

charge by NEPOOL or the ISO) associated with the services and any other requirements, market products, expenses or charges imposed by NEPOOL or the ISO, as they may be in effect from time to time.

The Supplier will also be responsible for all transmission and distribution losses associated with delivery of the electricity from the delivery point to the Energy Service customer's meter. A description of the estimation process for determining supplier hourly load can be found in Appendix A of the Master Power Agreement, found in Appendix B of this RFP.

Liberty will make arrangements with the ISO for transmission service over the PTF and non-PTF, from and after the Delivery Point to the Customers' meters. Liberty will be billed by the ISO and the applicable Participating Transmission Owner(s) for these services. Liberty will pay these bills and collect the costs, along with Liberty's distribution costs, from its retail customers through its retail delivery service tariffs. Any other transmission or distribution costs will be the Supplier's responsibility.

4.5 Implementation of the New Hampshire Renewable Portfolio Standards ("NH-RPS")

In 2007 the State of New Hampshire enacted an Electric Renewable Portfolio Standards law ("NH-RPS Law") (RSA 362-F) to foster the development of renewable energy sources to meet New Hampshire's energy needs. The NH-RPS Law requires all retail electricity suppliers to source a minimum portion of their energy needs from a portfolio of renewable energy resources. The NHPUC rules (Chapter PUC 2500) implementing the NH-RPS Law can be found at:

<http://www.puc.state.nh.us/Regulatory/Rules/Puc2500.pdf>

These rules require Liberty to demonstrate that a portion of its electricity sales are supplied from a mix of renewable energy generation sources. They are:

Class I consists of certain new renewable generators that began operation after January 1, 2006);

Class I Thermal consists of certain new renewable technologies producing useful thermal energy that began operation after January 1, 2013;

Class II consists of certain new generators utilizing solar technologies;

Class III consists of existing generators utilizing: 1) biomass technologies with a gross nameplate capacity of 25 MW or less; and 2) methane gas; and

Class IV consists of existing qualifying small hydroelectric generators with a gross nameplate capacity of 5 MW or less.

The renewable requirements as a percent of sales are divided into separate classes and summarized below:

NH RPS Classes	2022	2023
RPS Class I Non-Thermal	10.3%	11.0%
RPS Class I Thermal	2.0%	2.0%
RPS Class II	0.7%	0.7%
RPS Class III	8.0%	8.0%
RPS Class IV	1.5%	1.5%
Total	22.5%	23.4%

Liberty requests Respondents to separately bid the cost of NH-RPS compliance equivalent to 22.5% in 2022 and 23.4% in 2023. Liberty will have the option to select bids that include or exclude the NH-RPS component. Liberty will not select a supplier's bid for just the NH-RPS compliance.

If Liberty accepts bids with the NH-RPS components, Liberty will require the winning Supplier to utilize the NEPOOL Generation Information System ("NEPOOL GIS") to provide NEPOOL GIS Certificates that comply with the requirements of the NH-RPS rules. Respondents may propose alternate methods for demonstrating compliance. In each monthly invoice for a service that includes the NH-RPS component, Liberty will take a credit equal to the product of the NH-RPS obligation and the applicable Alternative Compliance Payment. Once a Supplier delivers the required number of NEPOOL GIS Certificates, the credit will be returned to the Supplier.

5. Proposal Requirements

5.1 Format of Proposal

The information required by Liberty to evaluate each proposal is identified in Appendix C. Respondents may simply complete the forms provided in Appendix C in any legible fashion and return them to Mr. Warshaw as provided in Section 3.2. In addition, proposals should contain explanatory, descriptive and/or supporting materials as necessary.

5.2 Proposed Pricing

Respondents must specify the price at which they will provide Default Service for each Load Block on which they are bidding to serve. Purchases will be made on an "as-delivered" energy basis with prices stated on a fixed dollar per MWh (\$/MWh) basis. Such prices may vary by calendar month and by customer group, but must be uniform for the entire calendar month and cover the entire term of this Request for Proposals.

Prices which contain demand components, minimum purchase requirements or which vary by time-of-use within a calendar month will be rejected. Prices which exclude one or more market costs (e.g. capacity, uplift costs, etc.) will be rejected.

Liberty intends to pay a Supplier based on the billing determinants as defined in the Master Power Agreement. These billing determinants are the loads as reported to and settled by the ISO, which include transmission and distribution losses, and exclude any PTF losses allocated to the Supplier by the ISO during the settlement.

Liberty is seeking the following pricing:

- **All-Inclusive Bids:** For Load Blocks A, B and C, a price which includes all costs. Should Liberty select this option, (1) Suppliers would be responsible for all costs including capacity market charges, and (2) Suppliers would not be responsible for supplying the RPS component.
- **NH-RPS Compliance:** The price, on a separate dollar per MWh (\$/MWh) basis in 2022, for Supplier to provide the required NH-RPS component for the load block they are proposing to serve. Should Liberty select this option, the NH-RPS Compliance Bid prices would be added to the All-Inclusive Bid price and the Supplier would provide the applicable quantity of NEPOOL GIS Certificates (see Section 4.5). Liberty will not select a supplier's bid for the NH-RPS compliance without accepting a supplier's All-Inclusive bid.

5.3 Terms and Conditions

Service will be provided pursuant to the terms of the Master Power Agreement provided in Appendix B of this RFP.

5.4 New England Market Participation

Each Respondent must indicate whether it has an executed and accepted Market Participant Service Agreement with ISO New England or if it plans to execute an agreement and, if so, at what step it is in the application process and the time frame for completing the process. Respondents must also provide evidence of agreements with a Market Participant if Respondent will have another Market Participant be responsible for its market settlement obligations.

5.5 Competitive Supplier Registration

The service provided by the Supplier of Default Service to Liberty is a wholesale transaction between the Supplier and Liberty; therefore, the Supplier does not have to be licensed or a registered supplier with any state regulatory commission.

5.6 Regulatory Approvals

The Supplier of the services covered by this Request for Proposal must obtain and maintain all necessary regulatory approvals required to enable it to provide the applicable service; such approvals must be obtained prior to August 1, 2022.

6. Retail Customer Relationships

6.1 Customer Billing

All customers taking Energy Service covered by this RFP will be retail customers of Liberty. As the retail provider of such service, Liberty will bill customers for the Energy Service provided.

6.2 Notification of Enrollments and Terminations

Liberty may provide electronic notification to the Supplier of Default Service customer enrollments and terminations within a customer group. Enrollment information will include account number, rate class and commencement date of service. Termination information will include account number, rate class and termination date of service. Such notifications shall only be provided when a Supplier establishes an Electronic Data Interchange (EDI) account with Liberty.

6.3 Customer Service

Liberty, as the retail provider of Energy Service, will provide customer service to all customers receiving Energy Service.

7. Selection Process

The principal criteria to be used in evaluating proposals will include:

- Lowest evaluated bid price by Load Block;
- Respondent's ability to meet the credit requirements established in the Master Power Agreement provided in Appendix B;
- Firmness of delivery;
- The supplier's past experience in providing similar services to Liberty;
- The supplier's past experience in providing similar services to other companies in New England;
- The supplier's past experience in providing similar services to other companies in other regions;
- The supplier's demonstrated understanding of its obligations under the Master Power Agreement; and

- Whether there have been any past or are any present events that are known that may adversely affect the supplier's ability to provide the requirements to Liberty's Energy Service customers.

Liberty will evaluate the NH-RPS Compliance bids only for the Load Block winning Respondents. Liberty will accept the NH-RPS Compliance bid if it is at or less than the available market prices.

8. Credit Requirements

In order to protect Liberty's Energy Service customers from the risk of Supplier default, a winning Supplier must be able to demonstrate it has the financial resources to perform during the term of the agreement. As reflected in the attached Master Power Agreement (Appendix B to this RFP), Liberty will require Supplier(s) to provide some form of security when entering into a Confirmation. The security arrangement will be based on the expected volume of load for the bid block and a mark-to-market margining clause. As forward market prices change, the Supplier will be required to post security for those incremental changes. Additionally, Suppliers that are rated at or below BBB-/Baa3 will be required to post an Independent Amount equal to 10% of the notional value of each Load Block awarded. The Supplier shall provide security in one of the following forms:

- Unsecured line of credit for a rated counterparty;
- Parental Guaranty;
- Letter of Credit; and
- Cash deposit with Liberty.

Respondents that are rated by a major credit rating agency must provide the ratings assigned by such agencies. Respondents that are not rated by a major credit rating agency must provide the following information to enable Liberty to evaluate a Respondent's financial strength:

- Respondent's organizational history;
- Date of establishment;
- Initial (if founded within the last ten years) and current capitalization;
- Certified financial statements, including balance sheets and statements of income and cash flow with respect to the two previous fiscal years and the most recent interim period;
- Forms 10-K and 10-Q, submitted to the United States Securities and Exchange Commission for the two previous fiscal years, if applicable;
- Short-term and long-term debt ratings from Moody's Investor Service or Standard & Poor's Corporation; and
- Corporate affiliates or joint venture partners including any details regarding financial limitations between partners or affiliates.

If a Respondent has provided this information to Liberty or an affiliate in a response to a previous RFP, then the Respondent needs only to identify the date and to whom the information was submitted and update the previously provided information.

9. General Requirements

Liberty may withdraw and terminate this RFP at any time without any liability. Liberty reserves the right to accept or reject, in whole or in part, any and all proposals. Liberty will not be responsible to any Respondent, or any other party, for failure to execute a Master Power Agreement or Confirmation.

Liberty shall reject proposals submitted in response to this RFP that are incomplete, or do not conform to the requirements of the RFP, or are submitted beyond the deadline for submission. All proposals submitted by Respondents in response to the RFP will become the exclusive property of Liberty.

If any information provided by the Respondent changes or fails to remain valid, it is the sole responsibility of the Respondent to notify Liberty of such change. Failing to do so may result in disqualification of the Respondent and its proposal for the solicitation.

Respondents shall, at their own cost and expense, defend, indemnify and hold harmless Liberty, its parent, subsidiaries and affiliates and their officers, directors, trustees, employees, shareholders, executors, administrators, successors and assigns against any and all manner of past, present, or future claims, demands, disputes, controversies, complaints, suits, actions proceeding or allegations of any kind which in any manner relate to arise out of, or result from any false statements or misrepresentations, intentional or unintentional, in its proposal, or breach of any covenant by the Respondent set forth herein.

Liberty agrees that it will treat the information it receives from Respondents in a confidential manner and will not, except as required by law or regulatory authority, disclose such information to any third party or use such information for any purpose other than in connection with this RFP.

Termination of this Agreement shall in no way limit or restrict any Party’s right to pursue any legal or equitable remedies available to it arising from an Event of Default.

(b) Seller expressly agrees that at any time after the occurrence of an Event of Default by Seller, or the delivery of a Termination Notice to Seller by the Buyer, the Buyer may exercise any rights it may have pursuant to the CSA.

The Termination Damages shall include all reasonably incurred transaction costs and expenses that otherwise would not have been incurred by the non-defaulting Party. In determining its Termination Damages, the non-defaulting Party shall offset its losses and costs by any gains or savings realized by the non-defaulting Party as a result of the termination. (d) Notwithstanding any other provision of this Agreement, the cure of any default or failure to comply with, observe or perform any covenant, warranty or obligation under this Agreement within the period provided therefor in this Article shall not release such defaulting Party from its obligations under Section 9.2 of this Agreement.

(b) The Buyer agrees to defend, indemnify and save Seller, its officers, directors, employees, agents, successor, assigns, and Affiliates and their officers, directors, employees and agents harmless from and against any and all third-party claims, suits, actions or causes of action and any resulting losses, damages, charges, costs or expenses, (including reasonable attorneys' fees and court costs), arising from or in connection with any (a) breach of representation or warranty or failure to perform any covenant or agreement in this Agreement by said Buyer, (b) any violation of applicable law, regulation or order by Buyer, (c) any act or omission by the Buyer, with respect to this Agreement first arising, occurring or existing during the term of this Agreement, whether incurred by settlement or otherwise, and whether such claims or actions are threatened or filed prior to or after the termination of this Agreement, except to the extent caused by an act of gross negligence or willful misconduct by an officer, director, agent, employee or Affiliate of Seller or its respective successors or assigns.

The Party seeking indemnification shall have the right, at its sole cost and expense, to participate in the defense of any such claim or action. The Party seeking indemnification shall not compromise or settle any such claim or action without the prior consent of the other Party, which consent shall not be unreasonably withheld.

Seller must provide the Buyer at least ten (10) days advance written notice of collateral assignment and provide copies of any such assignment and relevant agreements or writings.

Either Party may, upon written notice, assign its rights and obligations hereunder, or transfer such rights and obligations by operation of law, to any entity with which or into which such Party shall merge or consolidate or to which such Party shall transfer all or substantially all of its assets, provided that such other entity agrees to be bound by the terms hereof and provided further, that such other entity's creditworthiness is comparable to or higher than that of such Party at the time this Agreement was executed and such Party is not relieved of any obligation or liability hereunder as a result of such assignment

Force Majeure shall not be based on (A) fluctuations in Default Service, (B) the cost to a Party to overcome or avoid, or cause to be avoided, the event or circumstance affecting such Party's performance or (C) events affecting the availability or cost of operating any generating facility.

(b) To the extent that either Party is prevented by Force Majeure from carrying out, in whole or in part, its obligations hereunder and (i) such Party gives notice and detail of the Force Majeure to the other Party as soon as practicable after the onset of the Force Majeure, including an estimate of its expected duration and the probable impact on the performance of its obligations hereunder; (ii) the suspension of performance is of no greater scope and of no longer duration than is required by the Force Majeure, and (iii) the Party claiming Force Majeure uses commercially reasonable efforts to remedy or remove the inability to perform caused by Force Majeure, then the affected Party shall be excused from the performance of its obligations prevented by Force Majeure. However, neither Party shall be required to pay for any obligation the performance of which is excused by Force Majeure. This paragraph shall not require the settlement of any strike, walkout, lockout or other labor dispute on terms which, in the sole judgment of the Party involved in the dispute, are contrary to its interest. It is understood and agreed that the settlement of strikes, walkouts, lockouts or other labor disputes shall be entirely within the discretion of the Party involved in the dispute.

(c) No obligations of either Party which arose before the Force Majeure occurrence causing the suspension of performance shall be excused as a result of the event of Force Majeure.

(d) Prior to the resumption of performance suspended as a result of a Force Majeure occurrence, the Party claiming the Force Majeure shall give the other Party written notice of such resumption.

The waiver of any single breach or default of any term or condition of this Agreement shall not be deemed to constitute the waiver of any other prior or subsequent breach or default of the Agreement or any other term or condition.

ARTICLE 14. LAWS AND REGULATIONS

(a) This Agreement and all rights, obligations, and performances of the Parties hereunder, are subject to all applicable federal and state laws, and to all duly promulgated orders and other duly authorized action of governmental authorities having jurisdiction hereof.

Each Party agrees not to make or support such a filing or request, and that these covenants and waivers shall be binding notwithstanding any regulatory or market changes that may occur hereafter and (z) that it shall not challenge or support a challenge to the enforceability of the waiver in this Section (b).

(c) Absent the agreement of all Parties to a proposed change, the standard of review for changes to this Agreement proposed by a non-party or the Commission acting sua sponte shall be the "public interest" standard of review set forth in United Gas Pipe Line Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956) and Federal Power Commission v. Sierra Pacific Power Co., 350 U.S. 348 (1956) (the "Mobile-Sierra" doctrine).

(d) The Parties agree that, if and to the extent that the Commission adopts a final rule or order which requires that, in order to exclude application of the just and reasonable standard of review and to mandate application of the public interest standard of review under the Mobile-Sierra doctrine for a proposed change to this Agreement which is not agreed to by all Parties, the Parties must agree to language which varies from that set forth in Article 14(c) then, without further action of either Party, Article 14(c) will be deemed amended to incorporate the specific language required by such final rule or order as is necessary to have the public interest standard of review under the Mobile-Sierra doctrine apply to any proposed change to this Agreement to which all Parties do not agree.

(e) Nothing in this Article 14 is intended to modify any Party's right to enforce the terms of this Agreement as written.

Section 15.3 Venue; Waiver of Jury Trial

APPENDIX A

ESTIMATION OF SELLER HOURLY LOADS

Overview

Generating units operated by suppliers are dispatched by the power pool to meet the region's electrical requirements reliably, and at the lowest possible cost. As a result, a supplier's electricity production may not match the demand of its customers. In each hour some suppliers with low cost production units or that contract for the output of such units are net sellers of electricity to the pool, while other suppliers are purchasing power from the pool to meet the demand of their customers. To determine the extent to which suppliers are net buyers or sellers on an hourly basis, it is necessary to estimate the hourly aggregate demand for all of the customers served by each supplier. The Buyer will estimate Seller's Default Service load obligations within the Buyer's service territory and report the hourly results to the ISO on a daily basis.

The estimation process is a cost-effective approach to producing results that are reliable, unbiased and reasonably accurate. The hourly load estimates will be based on rate class load profiles, which will be developed from statistically designed samples. Each day, the class load shapes will be scaled to the population of customers served by each supplier. In cases where telemetered data on individual customers is available, it will be used in place of the estimated shapes. On a monthly basis, the estimates will be refined by incorporating actual usage data obtained from meter readings. In both processes, the sum of all suppliers' estimated loads will match the total load delivered into the distribution system. A description of the estimation process follows.

Daily Estimation of Suppliers' Own Load

The daily process estimates the hourly load for each supplier for the previous day. The following is an outline of this process:

- Select a proxy date from the previous year with characteristics which best match the day for which the hourly demand estimates are being produced. Extract class load shapes for the selected proxy date from the load research database.
- Scale the class load shapes appropriately for each individual customer based on the usage level of the customer relative to the class average usage level.
- Calculate a factor for each customer which reflects their relative usage level and includes an adjustment for losses ("load adjustment factor"). Aggregate the load adjustment factors across the customers served by each supplier in each class.
- Produce a preliminary estimate of each supplier's hourly loads by combining the proxy day class load shapes with the supplier's total load adjustment factors. Aggregate the loads across the classes for each supplier.

- Adjust the preliminary hourly supplier estimates so that their sum is equal to the Buyer's actual hourly metered loads (as metered at the point of delivery to the distribution system) by allocating any differences to suppliers in proportion to their estimated load.
- Adjust the hourly supplier estimates to include transmission losses within the Buyer's transmission system.
- Submit the hourly loads to the ISO.

After the Buyer has submitted the supplier hourly loads, the ISO will allocate PTF losses to the supplier's account during the settlement process.

Monthly Reconciliation Process

The monthly process will improve the estimates of supplier loads by incorporating the most recent customer usage information, which will be available after the monthly meter readings are processed. The actual customer meter readings, as well as actual interval data for the largest customers, are used to re-estimate all of the days in the calendar month being reconciled. Updates to customers' account status and supplier assignments that may have been missed during the daily processing (due to timing) are included. The resulting hourly supplier load estimates for all the days in the month are reported and used by the ISO as the basis for the monthly resettlement.

Except as to applicable statutes of limitation, no delay of the Buyer in the exercise of, or failure to exercise, any rights hereunder shall operate as a waiver of such rights, a waiver of any other rights or a release of Guarantor from any obligations hereunder.

Guarantor consents to the renewal, compromise, extension, acceleration or other changes including in the time of payment of and other changes in the terms of the Obligations, or any part thereof and amendments thereto, or any changes and modifications to the terms of the Agreement or waivers there under.

Guarantor shall not be discharged or released from its obligations hereunder by any proceeding, voluntary or involuntary, involving the bankruptcy, insolvency, receivership, reorganization, liquidation or arrangement of Seller or by any defense which Seller may have by reason of the order, decree or decision of any court or administrative body resulting from any such proceeding. Guarantor agrees that this Guaranty shall continue to be effective or shall be reinstated, as the case may be, if all or any part of any payment made hereunder is at any time avoided or rescinded or must otherwise be restored or repaid by the Buyer as a result of the bankruptcy of Seller, or otherwise, all as though such payments had not been made.

<u>Seller’s Collateral Threshold</u>	<u>Moody’s Credit Rating</u>	<u>S&P Credit Rating</u>
\$	A3 or above	A- or above
\$	Baa1 or Baa2	BBB+ or BBB

(d) **Valuation Agent/Valuation Time.** All calculations with respect to Collateral shall be made by the Valuation Agent as of the Valuation Time on the Valuation Date.

Paragraph 4. Delivery of Collateral. On any Business Day during the remaining term hereof on which (a) no Event of Default has occurred and is continuing with respect to Buyer, (b) no Termination date has occurred or has been designated as a result of an Event of Default with respect to Buyer for which there exist any unsatisfied payment Obligations, and (c) Seller's Collateral Requirement exceeds \$0.00, then Buyer may request, by written notice, that Seller Transfer to Buyer, or cause to be Transferred to Buyer, Eligible Collateral for the benefit of Buyer, having a Value of at least the Collateral Requirement ("***Delivery Amount***"). Such Eligible Collateral shall be delivered to Buyer on the next Business Day if the request is received by the Notification Time; otherwise Eligible Collateral is due by the close of business on the second Business Day.

Paragraph 5. Reduction and Substitution of Posted Collateral. On any Business Day during the term hereof on which (a) no Event of Default has occurred and is continuing with respect to Seller, (b) no Termination date has occurred or has been designated as a result of an Event of Default with respect to Seller for which there exist any unsatisfied payment Obligations, and (c) the Eligible Collateral posted by Seller exceeds the Exposure (rounding downwards for any fractional amount to the next interval of the Rounding Amount), then Seller may, at its sole cost, request that Buyer return Eligible Collateral in the amount of such difference ("***Return Amount***") and Buyer shall be obligated to do so. Such Eligible Collateral shall be returned to Seller on the next Business Day if the request is received by the Notification Time; otherwise Eligible Collateral is due by the close of business on the second Business Day. The Parties agree that if Seller has posted more than one type of Eligible Collateral to Buyer, Seller can, in its sole discretion, select the type of Eligible Collateral for Buyer to return; provided, however, that Buyer shall not be required to return the specified Eligible Collateral if immediately after such return, Seller would be required to post additional Eligible Collateral pursuant to the calculation of Exposure.

Paragraph 6. Administration of Posted Collateral.

(a) **Cash.** Posted Collateral provided in the form of Cash to Buyer hereunder shall be subject to the following provisions.

(i) So long as no Event of Default has occurred and is continuing with respect to Buyer, Buyer will be entitled to either hold Cash or to appoint an agent which is a Qualified Institution (a "***Custodian***") to hold Cash for Buyer. In the event that an Event of Default has occurred and is continuing with respect to Buyer, then the provisions of Paragraph 6(a)(ii) shall not apply with respect to Buyer and Cash shall be held in a Qualified Institution in accordance with the provisions of Paragraph 6(a)(iii)(B). Upon notice by Buyer to Seller of the appointment of a Custodian, Seller's obligations to make any Transfer will be discharged by making the Transfer to that Custodian. The holding of Cash by a Custodian will be deemed to be the holding of Cash by Buyer for which the Custodian is acting. If Buyer or its Custodian fails to satisfy any conditions for holding Cash as set forth above, or if Buyer is not entitled to hold Cash at any time, then Buyer will Transfer, or cause its Custodian to Transfer, the Cash to a Qualified Institution and the Cash shall be maintained in accordance with Paragraph 6(a)(iii)(B). Except as set forth in Paragraph 6(c), Buyer will be liable for the acts or omissions of the Custodian to the same extent that Buyer would be held liable for its own acts or omissions.

(ii) **Use of Cash.** Notwithstanding the provisions of applicable law, if no Event of Default has occurred and is continuing with respect to Buyer and no Termination date has occurred or been designated as a result of an Event of Default with respect to Buyer for which there exists any unsatisfied payment Obligations, then Buyer shall have the right to sell, pledge, rehypothecate, assign, invest, use, comingle or otherwise use in its business any Cash that it holds as Posted Collateral hereunder, free from any claim or right of any nature whatsoever of Seller, including any equity or right of redemption by Seller.

(iii) Notwithstanding Paragraph 6(a)(ii), if neither Buyer nor the Custodian is eligible to hold Cash pursuant to Paragraph 6(a)(i) then:

(A) the provisions of Paragraph 6(a)(ii) will not apply with respect to the Buyer; and

(B) the Buyer shall be required to Transfer (or cause to be Transferred) not later than the close of business within five (5) Business Days following such ineligibility all Cash in its possession or held on its behalf to a Qualified Institution to be held in a segregated, safekeeping or custody account (the “*Collateral Account*”) within such Qualified Institution with the title of the account indicating that the property contained therein is being held as Cash for Buyer. The Qualified Institution shall serve as Custodian with respect to the Cash in the Collateral Account, and shall hold such Cash in accordance with the terms of this CSA and for the security interest of Buyer and execute such account control agreements as are necessary or applicable to perfect the security interest of Seller therein pursuant to Section 9-314 of the Uniform Commercial Code or otherwise, and subject to such security interest, for the ownership and benefit of Seller. The Qualified Institution holding the Cash will invest and reinvest or procure the investment and reinvestment of the Cash in accordance with the written instructions of Buyer, subject to the approval of such instructions by the Seller (which approval shall not be unreasonably withheld). Buyer shall have no responsibility for any losses resulting from any investment or reinvestment effected in accordance with Seller’s approval.

(iv) **Interest.** So long as no Event of Default with respect to the Seller has occurred and is continuing, and no termination date for which any unsatisfied payment Obligations of Seller exist has occurred or been designated as the result of an Event of Default with respect to Seller, in the event that Buyer or its Custodian is holding Cash, Buyer will Transfer (or cause to be Transferred) to Seller, in lieu of any interest or other amounts paid or deemed to have been paid with respect to such Cash (all of which shall be retained by Buyer), the Interest Amount. Interest on Cash shall accrue at the Collateral Interest Rate. Interest accrued during the previous month shall be paid by the Buyer to the Seller on the 3rd Business Day of each calendar month and on any Business Day that posted Eligible Collateral in the form of Cash is returned to Seller. On or after the occurrence of an Event of Default with respect to Seller or a termination date as a result of an Event of Default with respect to Seller, Buyer or its Custodian shall retain any such Interest Amount as additional Posted Collateral hereunder until the obligations of Seller under the Agreement have been satisfied in the case of a termination date or for so long as such Event of Default is continuing in the case of an Event of Default.

(b) **Buyer’s Rights and Remedies.** If at any time an Event of Default with respect to Seller has occurred and is continuing, then, unless the Seller has paid in full all of its obligations that are then due, including those under Section 7.2(c) of this Agreement (“Obligations”), the Buyer may exercise one or more of the following rights and remedies: (i) all rights and remedies available to

a Secured Party under applicable law with respect to posted Eligible Collateral held by the Buyer, (ii) the right to set-off any amounts payable by the Seller with respect to any Obligations against any posted Eligible Collateral or the Cash equivalent of any posted Eligible Collateral held by the Buyer, or (iii) the right to liquidate any posted Eligible Collateral held by the Buyer and to apply the proceeds of such liquidation of the posted Eligible Collateral to any amounts payable to the Buyer with respect to the Obligations in such order as the Buyer may elect. For purposes of this Paragraph 6, the Buyer may draw on the entire undrawn portion of any Letter of Credit. Cash proceeds that are not applied to the Obligations shall be maintained in accordance with the terms of this CSA. The Seller shall remain liable for amounts due and owing to the Secured Party that remain unpaid after the application, pursuant to this Paragraph 6, of Eligible Collateral to the Obligations.

(c) **Seller's Rights and Remedies.** If at any time a termination date has occurred or been designated as the result of an Event of Default with respect to Buyer, then unless the Buyer has paid in full all of its obligations that are then due, including those under Section 7.2(c) of this Agreement: (i) the Seller may exercise all rights and remedies available to a Seller under applicable law with respect to the posted Eligible Collateral, (ii) the Buyer will be obligated immediately to return all posted Eligible Collateral and accrued Interest to the Seller, or (iii) to the extent that posted Eligible Collateral or accrued Interest are not returned pursuant to (ii) above, the Seller may set-off any amounts payable by the Seller with respect to any Obligations against any posted Eligible Collateral or the cash equivalent thereof or to the extent that Seller does not set off such amounts, withhold payment of any remaining amounts payable by the Seller with respect to any Obligations, up to the value of the remain posted Eligible Collateral held by the Buyer, until that posted Eligible Collateral is Transferred to the Seller. For avoidance of doubt, (i) the Buyer will be obligated immediately to Transfer any Letter of Credit to the Seller and (ii) the Seller may do any one or more of the following: (x) to the extent that the Letter of Credit is not Transferred to the Seller as required pursuant to (i) above, set-off any amounts payable by the Seller with respect to any Obligations against any such Letter of Credit held by the Buyer and, to the extent its rights to set-off are not exercised, withhold payment of any remaining amounts payable by the Seller with respect to any Obligations, up to the value of any remaining posted Eligible Collateral and the value of any Letter of Credit held by the Buyer, until any such Posted Eligible Collateral and such Letter of Credit is Transferred to the Seller; and (y) exercise rights and remedies available to the Seller under the terms of the Letter of Credit.

(d) **Letters of Credit.** Eligible Collateral provided in the form of a Letter of Credit shall be subject to the following provisions.

(i) As one method of providing Eligible Collateral, the Pledgor may increase the amount of an outstanding Letter of Credit or establish one or more additional Letters of Credit.

(ii) Upon the occurrence of a Letter of Credit Default, Seller agrees to Transfer to Buyer either a substitute Letter of Credit or Cash, in each case on or before the first Business Day after the occurrence thereof (or the third (3rd) Business Day after the occurrence thereof if only clause (a) under the definition of Letter of Credit Default applies).

(iii) Notwithstanding Paragraphs 4 and 5, (1) the Buyer need not return a Letter of Credit unless the entire principal amount is required to be returned, (2) the Buyer shall consent to a reduction of the principal amount of a Letter of Credit to the extent that a Delivery Amount would not be created thereby (as of the time of the request or as of the last time the Delivery Amount was determined), and (3) if there

is more than one form of Posted Collateral when a Return Amount is to be Transferred, the Secured Party may elect which to Transfer.

(e) **Care of Posted Eligible Collateral.** Buyer shall exercise reasonable care to assure the safe custody of all posted Eligible Collateral to the extent required by applicable law, and in any event the Buyer will be deemed to have exercised reasonable care if it exercises at least the same degree of care as it would exercise with respect to its own property. Except as specified in the preceding sentence, the Buyer will have no duty with respect to the posted Eligible Collateral, including without limitation, any duty to enforce or preserve any rights thereto.

(f) **Substitutions.** Unless otherwise prohibited herein, upon notice to the Buyer specifying the items of posted Eligible Collateral to be exchanged, the Seller may, on any Business Day, deliver to the Buyer other Eligible Collateral (“***Substitute Eligible Collateral***”). On the Business Day following the day on which the Substitute Eligible Collateral is delivered to the Buyer, the Buyer shall return to the Seller the items of Eligible Collateral specified in the Seller’s notice; provided, however, that the Buyer shall not be required to return the specified Eligible Collateral if immediately after such return, Seller would be required to post additional Eligible Collateral pursuant to the calculation of Exposure set forth in Paragraph 3(b) and the Confirmation.

Paragraph 7. Exercise of Rights Against Posted Collateral.

(a) **Disputes regarding amount of Eligible Collateral.** If either Party disputes the amount of Eligible Collateral to be provided or returned (such Party the “***Disputing Party***”), then the Disputing Party shall (a) deliver the undisputed amount of Eligible Collateral to the other Party (such Party, the “***Requesting Party***”) and (b) notify the Requesting Party of the existence and nature of the dispute no later than 5:00 p.m. EPT on the Business Day that the request for Eligible Collateral was made (the “***Request Date***”). On the Business Day following the Request Date, the Parties shall consult with each other in order to reconcile the two conflicting amounts. If the Parties are not able to resolve their dispute, the Eligible Collateral shall be recalculated, on the Business Day following the Request Date, by each Party requesting quotations from two (2) Reference Market-Makers for a total of four (4) quotations. The highest and lowest of the four (4) quotations shall be discarded and the arithmetic average shall be taken of the remaining two (2), which shall be used in order to determine the amount of Eligible Collateral required. On the same day the Eligible Collateral amount is recalculated, the Disputing Party shall deliver any additional Eligible Collateral required pursuant to the recalculation or the Requesting Party shall return any excess Eligible Collateral that is no longer required pursuant to the recalculation.

(b) **Further Assurances.** Promptly following a request by a Party, the other Party shall execute, deliver, file, and/or record any financing statement, specific assignment, or other document and take any other action that may be necessary or desirable to create, perfect, or validate any security interest or lien, to enable the requesting party to exercise or enforce its rights or remedies under this CSA, or to effect or document a release of a security interest on posted Eligible Collateral or accrued Interest.

(c) **Further Protection.** The Pledgor will promptly give notice to the Secured Party of, and defend against, any suit, action, proceeding, or lien that involves the posted Eligible Collateral delivered to Secured Party by Pledgor or that could adversely affect any security interest or lien granted pursuant to this CSA.

ENERGY SERVICE PROCUREMENT SUMMARY
FOR
LIBERTY UTILITIES (GRANITE STATE ELECTRIC) CORP.
FOR THE PERIOD
AUGUST 1, 2022 – JANUARY 31, 2023

1. RFP Issued

Liberty Utilities (Granite State Electric) Corp. (“Liberty”) issued its Request for Power Supply Proposals (“RFP”) on May 2, 2022, to a number of suppliers for the six-month service period August 1, 2022, through January 31, 2023.

The RFP was also distributed to all members of the NEPOOL Markets Committee and posted on Liberty’s energy supply website. As a result, the RFP had wide distribution throughout the New England energy supply marketplace.

The procurement was conducted in the same manner as prior procurements and in accordance with applicable New Hampshire rules and regulations including Liberty’s Second Amended Restructuring Settlement Agreement (“Restructuring Settlement”), RSA 374-F (“New Hampshire Act”), and Granite State Electric Company Post-Transition Service Energy Service Proposal Settlement Agreement (“New Hampshire Settlement Agreement”) approved by the New Hampshire Public Utilities Commission in Order No. 24,577 (Jan. 13, 2006).

Liberty’s RFP requested all-inclusive pricing for:

- 100% of the Large Customer Group Energy Service requirements for the six-month period August 1, 2022, through January 31, 2023; and
- 100% of the Small Customer Group Energy Service requirements for the six-month period August 1, 2022, through January 31, 2023.

A description of these load blocks is provided in Exhibit 1.

2. Key RFP Dates

- The RFP was issued on May 2, 2022.
- Supplier information was received on May 23, 2022.
- Indicative bids were received on May 31, 2022.
- Final bids were received on June 7, 2022.

3. Contract Submissions

All bidders had previously executed Master Power Agreements with Liberty.

4. Indicative Bids

Indicative bids were received on May 31, 2022, from [REDACTED] bidders. The indicative bids were evaluated and ranked (see Exhibits 2 and 3). Indicative pricing was used only to determine current market prices, to prepare an initial ranking of bids, and to identify any bidding anomalies. The retail prices in Exhibit 3 were calculated by adjusting the wholesale prices in Exhibit 2 by the ratio of wholesale purchases to retail deliveries.

The lowest indicative bids for each load block were compared to Liberty's estimate of expected indicative bids. Expected bid prices were calculated by comparing the historical relationship of bid prices to the market components that comprise those bid prices (see Exhibit 4). This method utilizes a detailed on-peak and off-peak calculation and incorporates all bid components: energy, capacity, and ancillary services.

In evaluating the bid prices, Liberty compared the expected bid price for each block, as derived above, to the lowest average indicative bid price for the block.

In addition to evaluating the bid price and ability to meet credit requirements, Liberty also performed a qualitative review of each bidder's ability to provide Energy Service during the service period based on the following:

- The bidder's past experience in providing similar services to Liberty or its affiliates;
- The bidder's past experience in providing similar services to other companies in New England;
- The bidder's past experience in providing similar services to other companies in other regions;
- The bidder's demonstrated understanding of the market rules related to the provision of Energy Service;
- The bidder's demonstrated understanding of its obligations under the proposed Master Power Agreement; and
- Whether there have been any past or are any present events that are known that may adversely affect the bidder's ability to provide Energy Service.

Liberty concluded that all bidders were qualified to provide Energy Service and would be capable of providing any required contract security.

5. Final Bids

Final bids were received on June 7, 2022, from [REDACTED] bidders. All bidders provided pricing for the Small Customer Group. [REDACTED] of the bidders provided pricing for the Large Customer Group. The final bids were evaluated and ranked (see Exhibits 5 and 6). The retail prices in Exhibit 6 were calculated by adjusting the wholesale prices in Exhibit 5 by the ratio of wholesale purchases to retail deliveries.

A summary of the number of conforming bids per block is provided in the following table:

Customer Group	Block - # Bids
Large	A [REDACTED]
Large	B [REDACTED]
Small	C [REDACTED]

6. Analysis and Award

The lowest final bids were compared to Liberty’s expected bids. The calculations of these expected prices are found in Exhibit 7.

The winning bids for the Large Customer Block were significantly above the expected prices as estimated. Communications from the bidders explained that there was significant uncertainty regarding the Large Customer group. Liberty still determined it was appropriate to select the winning bids. The winning bids for the Small Customer Group were within Liberty’s expectation regarding market uncertainty. As a result, the accepted bids are considered to be a reasonable representation of the market price for power supply.

Exhibit 8 provides a summary of the winning suppliers and the basis for the award. Exhibit 9 provides a bidder key to help identify bidders.

7. New Hampshire Electric Renewable Energy Portfolio Standard

The load covered by this RFP is subject to the following Renewable Portfolio Standard (“RPS”) requirements:

NH-RPS Classes	2022	2023
RPS Class I	10.3%	11.0%
RPS Class I Thermal	2.0%	2.2%
RPS Class II	0.7%	0.7%
RPS Class III	8.0%	8.0%
RPS Class IV	1.5%	1.5%
Total	22.5%	23.4%

Liberty also issued a Request for Proposals to Provide NEPOOL-GIS Certificates in Compliance with the New Hampshire Electric Renewable Portfolio Standards (“RECs”) on May 2, 2022. Bids were received from [REDACTED] bidders on May 21, 2022. Exhibit 10 provides an initial

analysis of the REC bids received. While the responses are still under review by Liberty, the prices in the bids and current market prices were used in developing the market price of RECs for this RFP by utilizing a combination of the REC bid price, previous RFP contracted REC purchases, and current market prices. Exhibit 11 provides a calculation of the proposed Renewable Portfolio Standard Cost Adder to include these costs. [REDACTED] of the bidders did provide an RPS adder in their final bids but the adders were higher than the proposed Renewable Portfolio Standard Adder.

8. Retail Rate

The expected retail rates, excluding administrative cost adders, were based on the winning wholesale costs. The retail prices in Exhibit 6 were calculated by adjusting the wholesale prices in Exhibit 5 by the ratio of wholesale purchases to retail deliveries.

A summary of the estimated retail rates is provided in Exhibit 13. The Energy Service retail rates were adjusted to include the average cost of RPS certificates that could be purchased in the open market.

THE STATE OF NEW HAMPSHIRE
BEFORE THE
NEW HAMPSHIRE PUBLIC UTILITIES COMMISSION

Liberty Utilities (Granite State Electric) Corp.
d/b/a Liberty

Energy Service for the Period of August 1, 2022 – January 31, 2023

Docket No. DE 22-024

Technical Statement of Heather M. Tebbetts and Adam M. Hall

June 13, 2022

A. Purpose of Technical Statement

On May 1, 2022, Liberty Utilities (Granite State Electric) Corp. (“Liberty” or “the Company”) issued its RFP for the Energy Service rate period of August 1, 2022 – January 31, 2023.

On June 7, 2022, the Company received final bids, as discussed in John D. Warshaw’s testimony that is being filed simultaneously with this Technical Statement.

The purpose of this technical statement is to calculate the final Energy Service rates that the Company asks the Commission to approve in this docket.

The attachments listed below provide the reconciliation of the prior period August 1, 2021, through July 31, 2022, along with the calculation of the rates for the period August 1, 2022, through January 31, 2023. Attachments HMT/AMH-3 through HMT/AMH-6 are updated from the Company’s preliminary reconciliation filing on May 13, 2022, to reflect actual costs through May 2022.

- Attachment HMT/AMH-1 – Energy Service Rates Summary Large Customer Group
- Attachment HMT/AMH-2 – Energy Service Rates Summary Small Customer Group
- Attachment HMT/AMH-3 – Energy Service Reconciliation
- Attachment HMT/AMH-4 – RPS Reconciliation
- Attachment HMT/AMH-5 – Energy Service Reconciliation Adjustment Factor
- Attachment HMT/AMH-6 – Energy Service Cost Reconciliation Adjustment Factor
- Attachment HMT/AMH-7 – Residential Bill Impact
- Attachment HMT/AMH-8 – Redline and Clean Tariff Pages

B. Electricity Market Volatility

The energy market is extremely volatile at this time. There were fewer bidders in this solicitation than in previous solicitations. ISO New England NYMEX futures for electricity range from approximately \$125/MWh in August 2022 and soar to over \$250/MWh in the winter, and natural gas NYMEX Henry Hub futures for that same period range from about \$8/MMBtu to over \$30/MMBtu.

In comparison, in August 2021 the ISO New England NYMEX futures started below

\$50/MWh and peaked at less than \$90/MWh in January 2022. The natural gas NYMEX Henry Hub futures for that same period went from about \$3/MMBtu to about \$10/MMBtu. Mr. Warshaw provides further discussion about the markets in his testimony.

C. Rate Proposal

Consistent with past practice, Liberty is proposing a fixed six-month Energy Service rate for the period of August 1, 2022 – January 31, 2023, for the Small Customer Group¹ based on a weighted average of the six-monthly contract prices contained in the supply agreement with the winning Energy Service supplier for the Small Customer Group.

The Company is also proposing monthly Energy Service rates for the Large Customer Group² based on two three-month contract prices contained in the supply agreement with the winning Energy Service supplier for the Large Customer Group.

1. Renewable Portfolio Standard (“RPS”)

On Attachment HMT/AMH-4, the Company presents the actual reconciliation of RPS compliance adder revenue and expense by month. The Company has an over-collection of \$810,364. The adder for RPS compliance will be an increase from \$0.00684 per kWh to \$0.00781 per kWh, or \$0.00097 per kWh for the six-month period beginning August 1, 2022. Mr. Warshaw further discusses the RPS adder in his testimony.

2. Small Customer Group Total Rate

The Energy Service rate for the period of August 1, 2022 – January 31, 2023, for the Small Customer Group is \$0.22227 per kWh, as calculated on Attachment HMT/AMH-2. For customers taking service under Rates EV and D-11 Battery Pilot, the critical peak rate is \$0.21739 per kWh, the mid-peak rate is \$0.10376 per kWh, and the off-peak rate is \$0.06192 per kWh.

<u>Small Customer Group</u>	
Base Rate (\$/kWh)	\$0.21290
ESRAF (\$/kWh)	\$0.00096
ESCRAF (\$/kWh)	\$0.00061
<u>RPS Adder (\$/kWh)</u>	<u>\$0.00781</u>
Total Proposed Rate	\$0.22228

3. Large Customer Group Total Rate

The Energy Service rates for the period of August 1, 2022 – January 31, 2023, for the Large Customer Group are calculated on Attachment HMT/AMH-1 and are as follows:

¹ Customers taking service under Domestic Service Rate D; Domestic Service - Optional Peak Load Pricing Rate D-10; Outdoor Lighting Service Rate M; Limited Total Electrical Living Rate T; General Service Rate G-3; or Limited Commercial Space Heating Rate V of the Company’s Retail Delivery Tariff.

² Customers taking service under General Long-Hour Service Rate G-2 or General Service Time-Of-Use Rate G-1 of the Company’s Retail Delivery Tariff.
