**Re: Docket No. DE 22-039  
Public Service Company of New Hampshire d/b/a Eversource Energy  
Petition for Adjustment of Stranded Cost Recovery Charge**

Dear Chairman Goldner:

Enclosed for filing with the New Hampshire Public Utilities Commission (the “Commission”) on behalf of Public Service Company of New Hampshire d/b/a Eversource Energy (“Eversource” or the “Company”), please find the Company’s corrected petition requesting approval to adjust its Standard Cost Recovery Charge (“SCRC”) for effect on February 1, 2023. The petition has been revised to correct the preliminary SCRC rates presented in the tables on pages 4-5 of petition; the preliminary rates in the enclosed petition are now consistent with the preliminary rates presented in the initial testimony of Marisa B. Paruta filed in support of the filing.

Also enclosed for filing is the Company’s motion requesting to move the hearing date in this matter. As set forth in the enclosed motion, Eversource will update its filing to reflect the annual Rate Reduction Bond (“RRB”) True-up letter. The Company expects to receive the updated RRB rates on January 9, 2023 (*i.e.*, just two days before the scheduled hearing date). To allow consideration of the Company’s rate update ahead of the hearing in this matter, the Company is requesting that the Commission move the hearing date to no earlier than January 13, 2023. Eversource has consulted with the Department of Energy and is authorized to represent that the DOE assents to this Motion.

Please contact me if you have any questions.

Sincerely,

Jessica Buno Ralston
