Re: DW 22-058 Bedford Waste Services Corporation Request for Change in Rates –  
Adjustment to Procedural Schedule

Dear Chairman Goldner:

On December 21, 2022, the Commission approved the Department of Energy’s proposed joint procedural schedule in the above captioned docket, including a technical session scheduled for Thursday, January 26, 2023.

Respectfully, due to the press of other business and staff resources, the DOE is unable to attend the technical session scheduled on January 26, 2023. Accordingly, the DOE requests the following schedule be approved:

Event	Current Date	Proposed Date
Technical Session	January 26, 2023 at 10am	February 7, 2023 at 10am
DOE Data Requests Set 2	January 27, 2023	February 8, 2023
Company's Responses Set 2	February 3, 2023	February 15, 2023
File Settlement / Testimony	March 2, 2023	March 16, 2023

The relief requested is consistent with Puc 202.04 requirements. Bedford Waste, through its representative Stephen St. Cyr, assents to the relief requested herein. Consequently, Bedford’s rights will not be adversely affected by this extension request. In addition, this request will not unduly delay the proceeding, as additional time is essential to allow DOE to file an accurate analysis and potential settlement. Furthermore, these changes will not impact the remainder of the procedural schedule in this docket. DOE will thus be caused undue hardship or inconvenience if the extension is not granted, and therefore the delay is reasonable and appropriate.

Sincerely,

Matthew C. Young  
Hearings Examiner/Staff Attorney
