---

Dear Friends, I am working with a mid-sized business here in Holderness to plan energy efficiency upgrades over the next 10 years. As you can imagine, it is very important for a business to have a stable regulatory and incentive environment in order to plan ahead for investments. It is vital that net metering and NH Saves be sustained and enhanced. These programs help us save on our energy costs and reduce peak demand. We will be better able to provide jobs and tax revenues in our community far into the future.

Thank you,  
Sarah Thorne
